Cari bambini,

qui troverete l'occorrente per costruire il vostro calendario dell'Arvento composto da 24 scatoline.

Se siete abbastanza grandi potrete divertirvi a farlo anche da soli, diversamente dovrete chiedere l'aiuto di un adulto: in ogni caso, saranno i vostri genitori a valutarlo.

Dopo che avrete stampato tutti i fogli (di formato A4), dovrete ritagliare ogni scatolina (una per foglio) lungo i bordi.

A questo punto, piegate le scatoline lungo le linee e incollate solo le linguette dove è indicato: in questo modo, ogni scatola resterà apribile in corrispondenza dell'immagine.

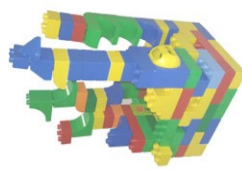

Seguendo il disegno della pagina seguente, componete il calendario-Albero di Natale con i cubetti che avete costruito.

Nota per i genitori

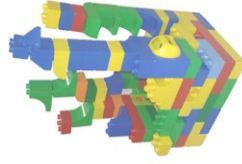

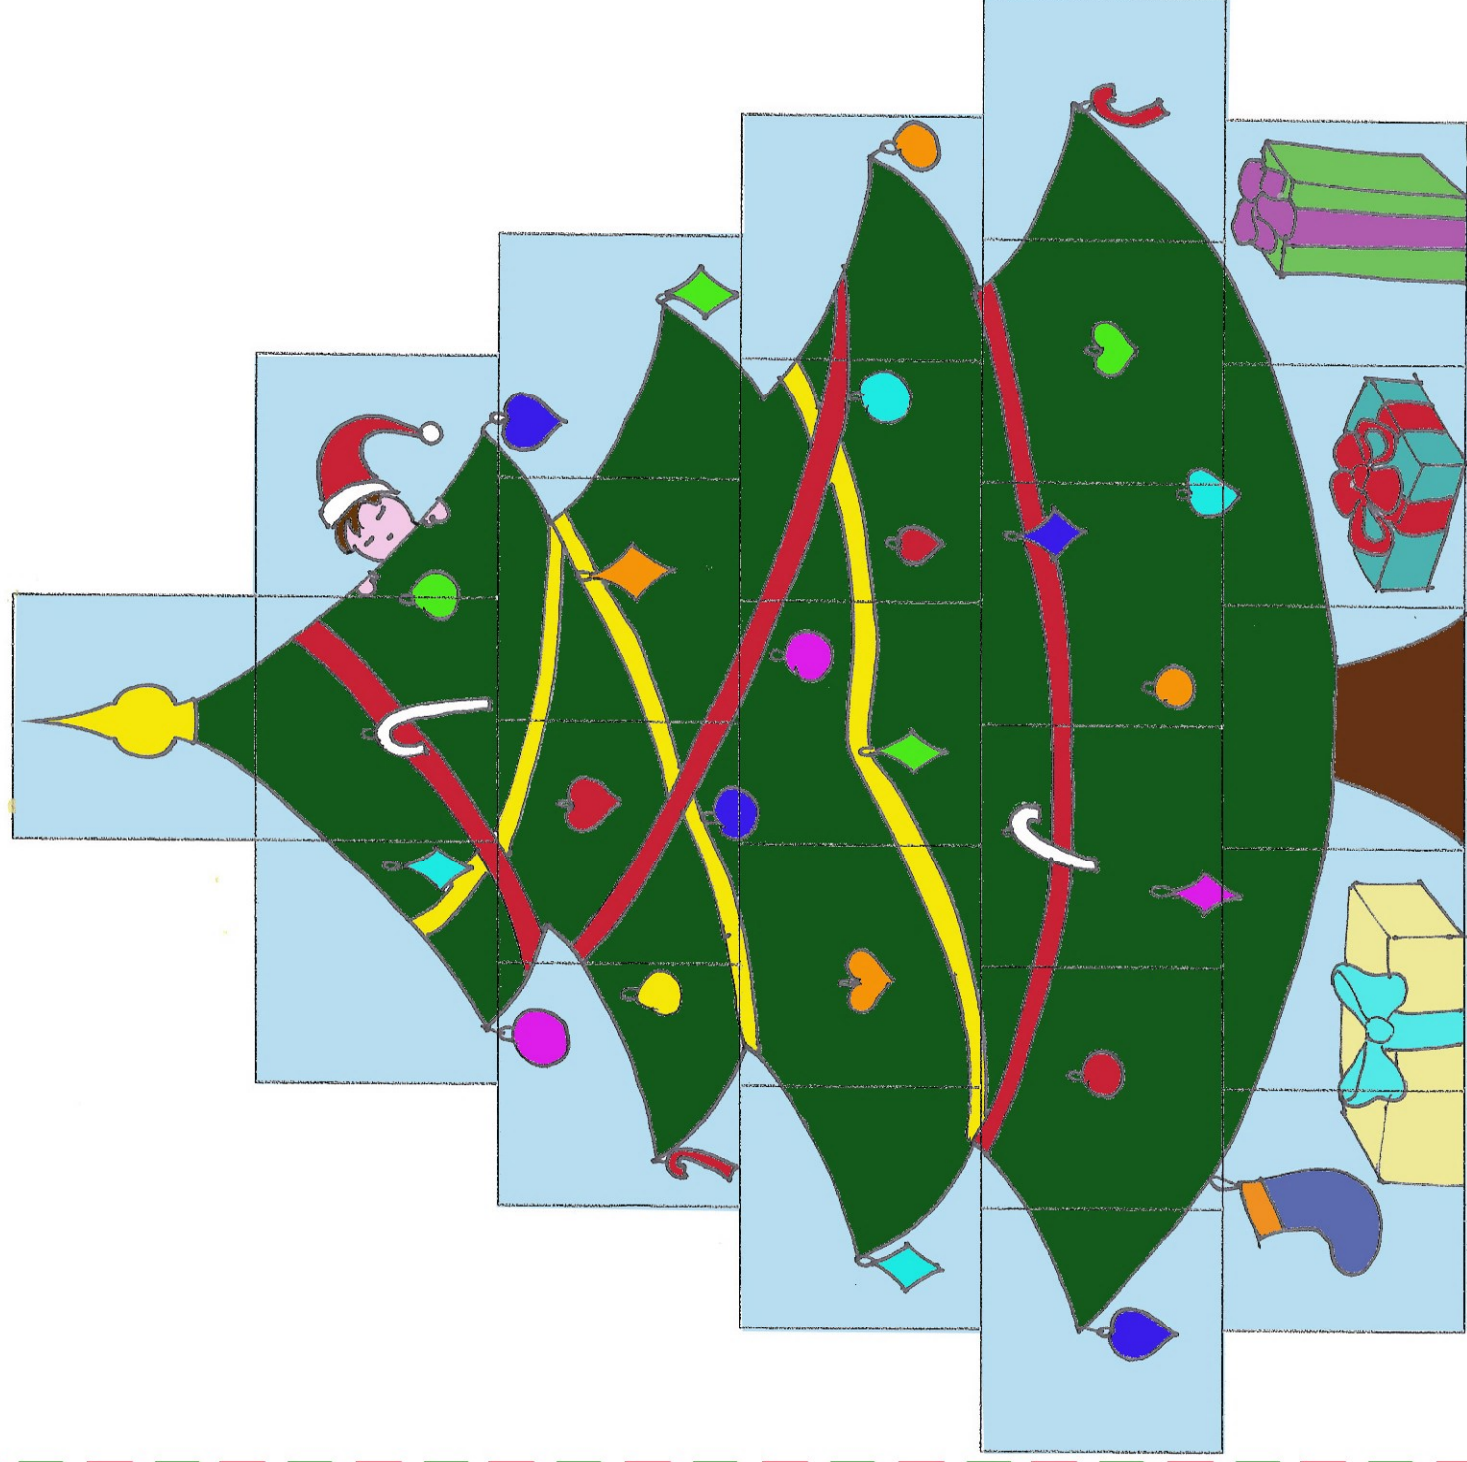

Mi permetto di consigliarvi delle idee alternative ai soliti cioccolatini o caramelle da far trovare ai vostri bimbi nelle scatoline:

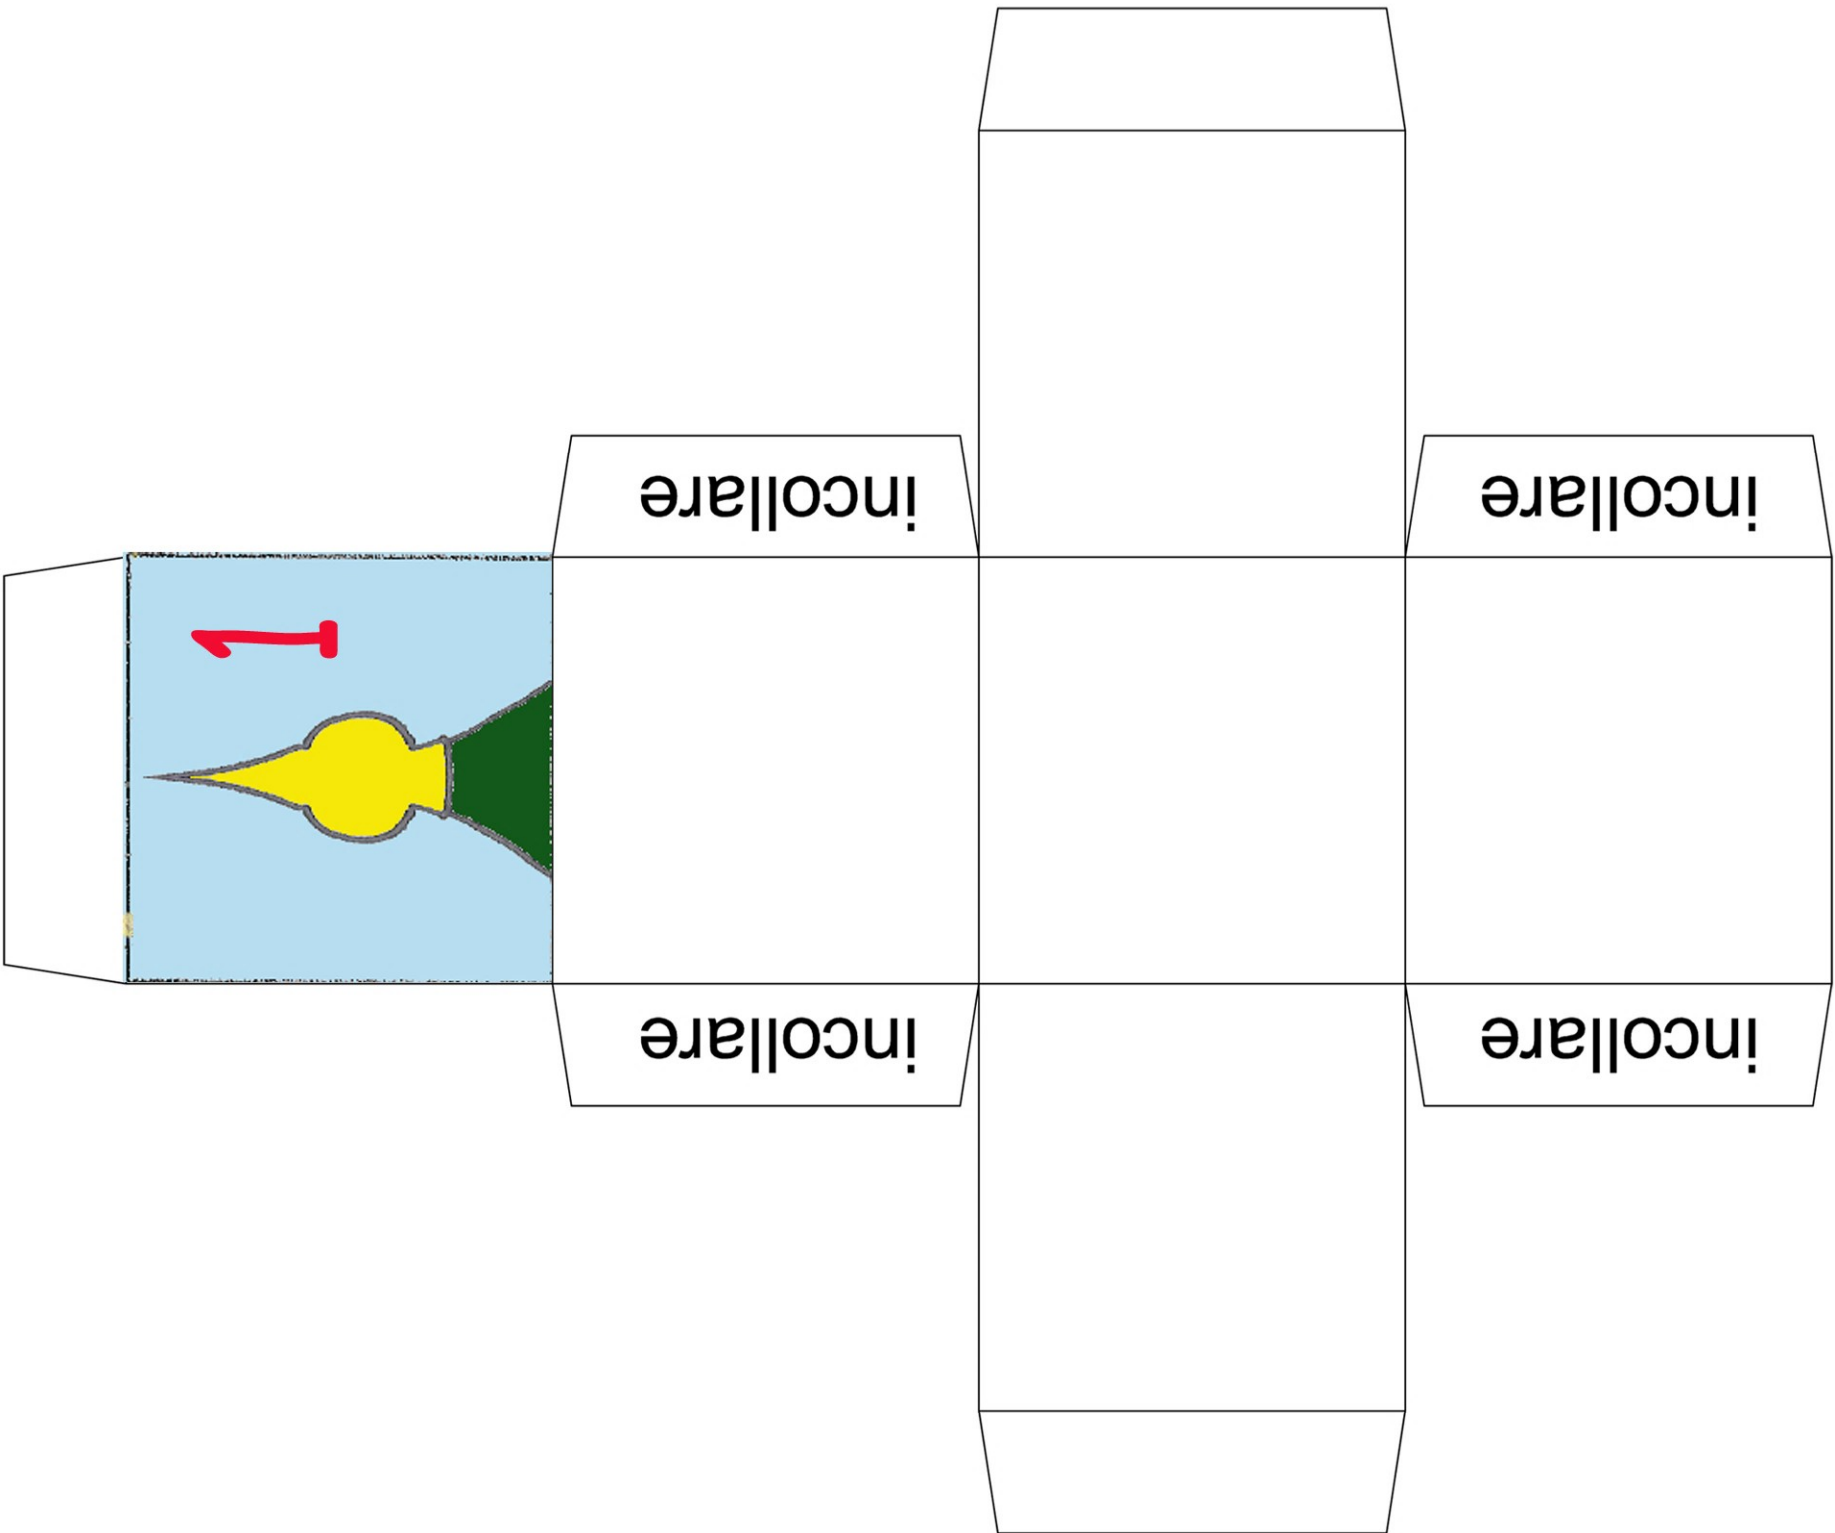

un disegno da colorare, una breve favola da leggere, un biglietto con la descrizione di un'attività da fare insieme, degli adesivi per decorare i loro disegni, una ricetta da cucinare con il vostro aiuto...

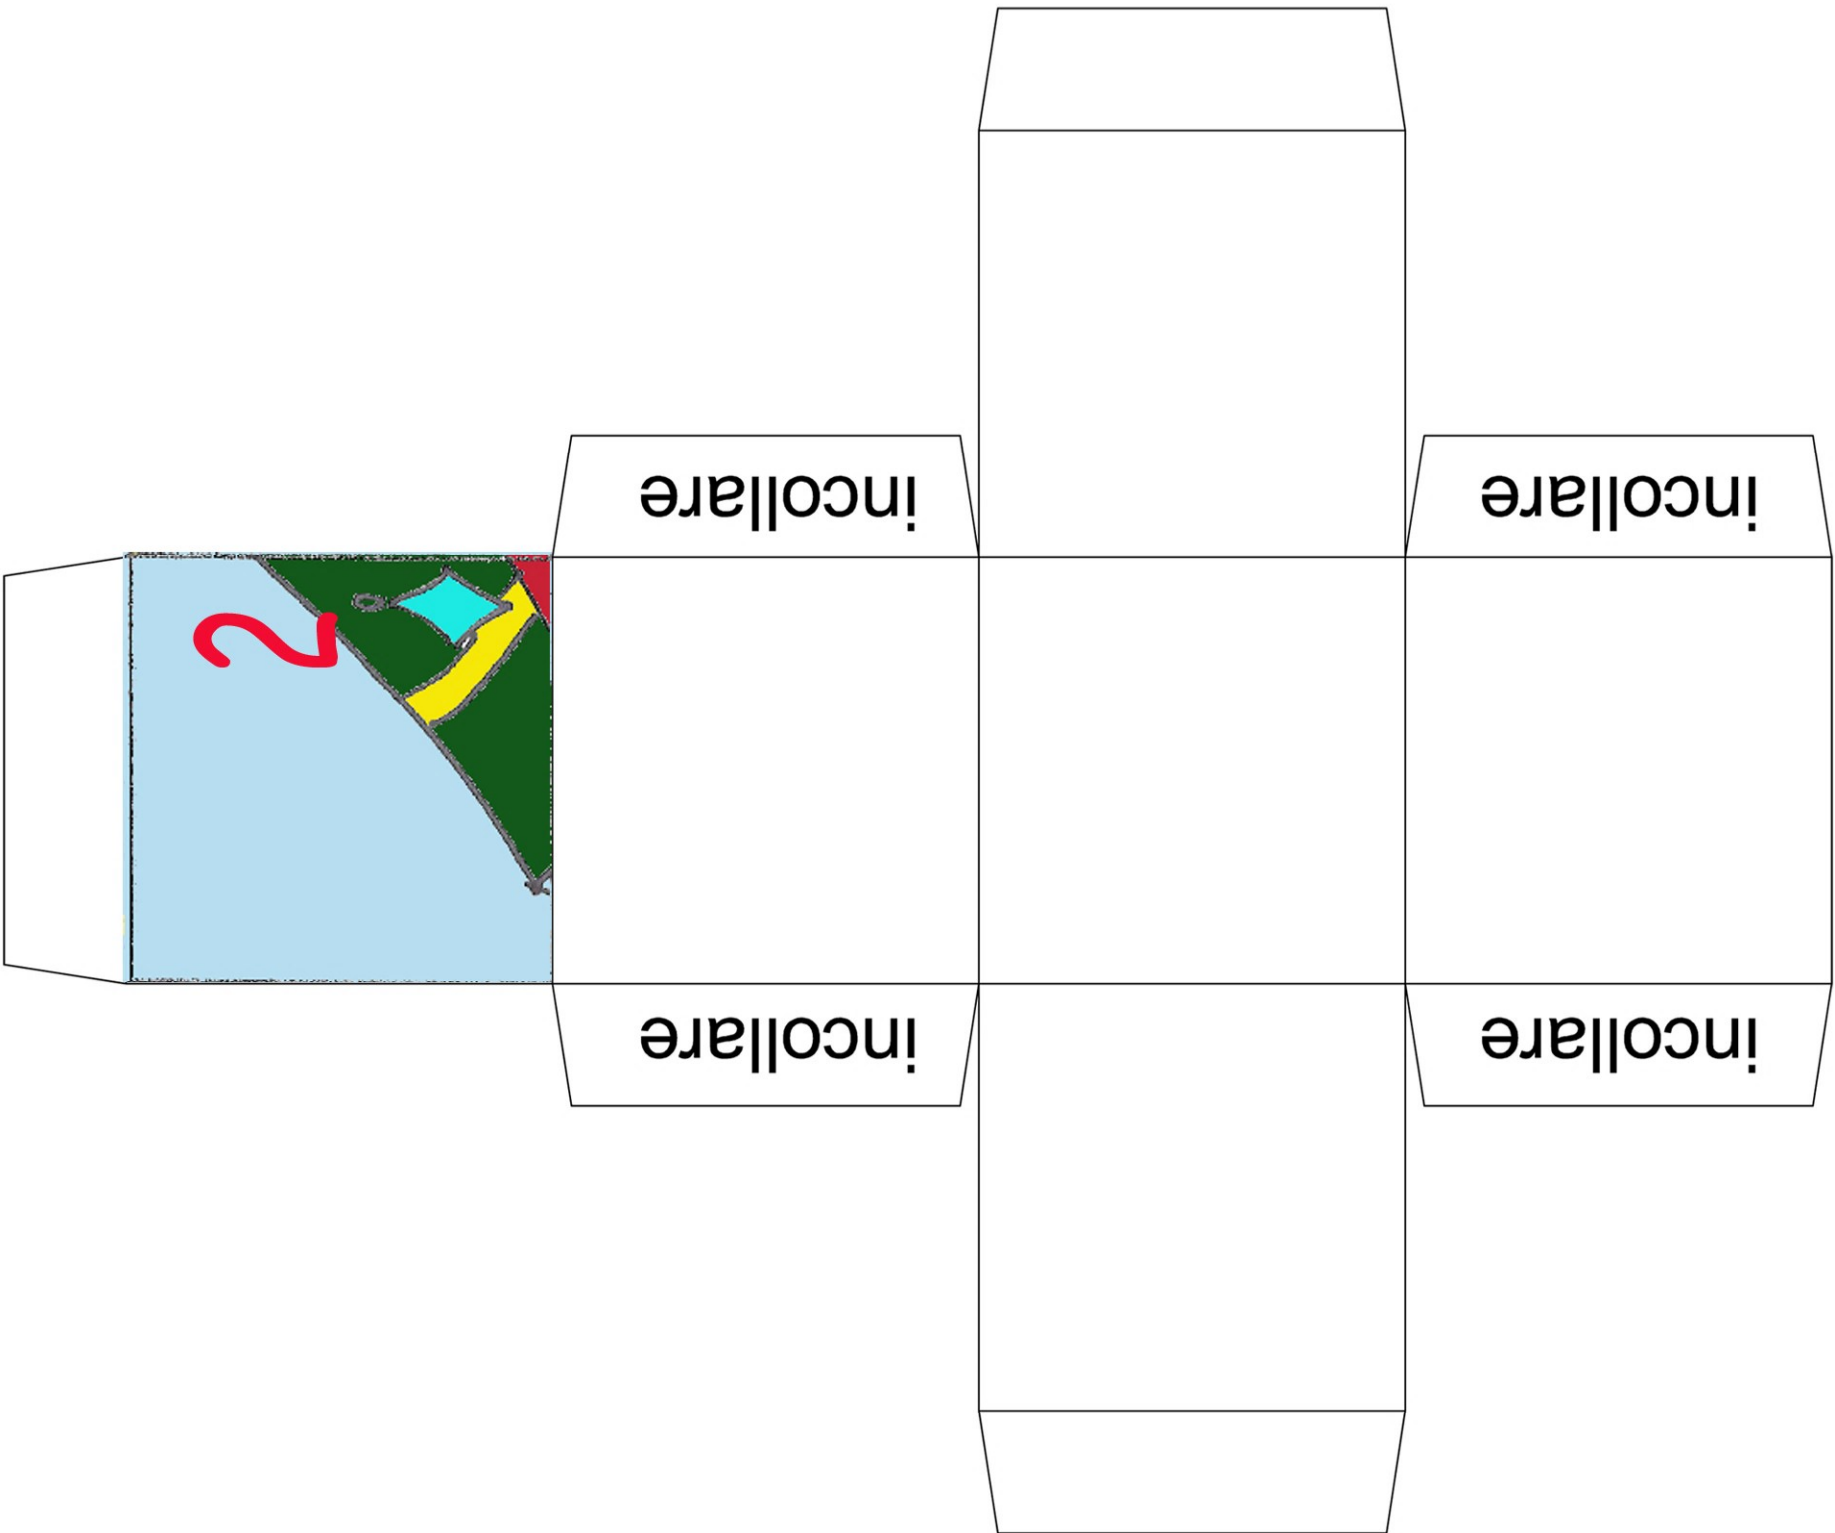

Sia chiaro, non dico di eliminare i dolciumi, ma di alternarli a qualcosa di diverso.

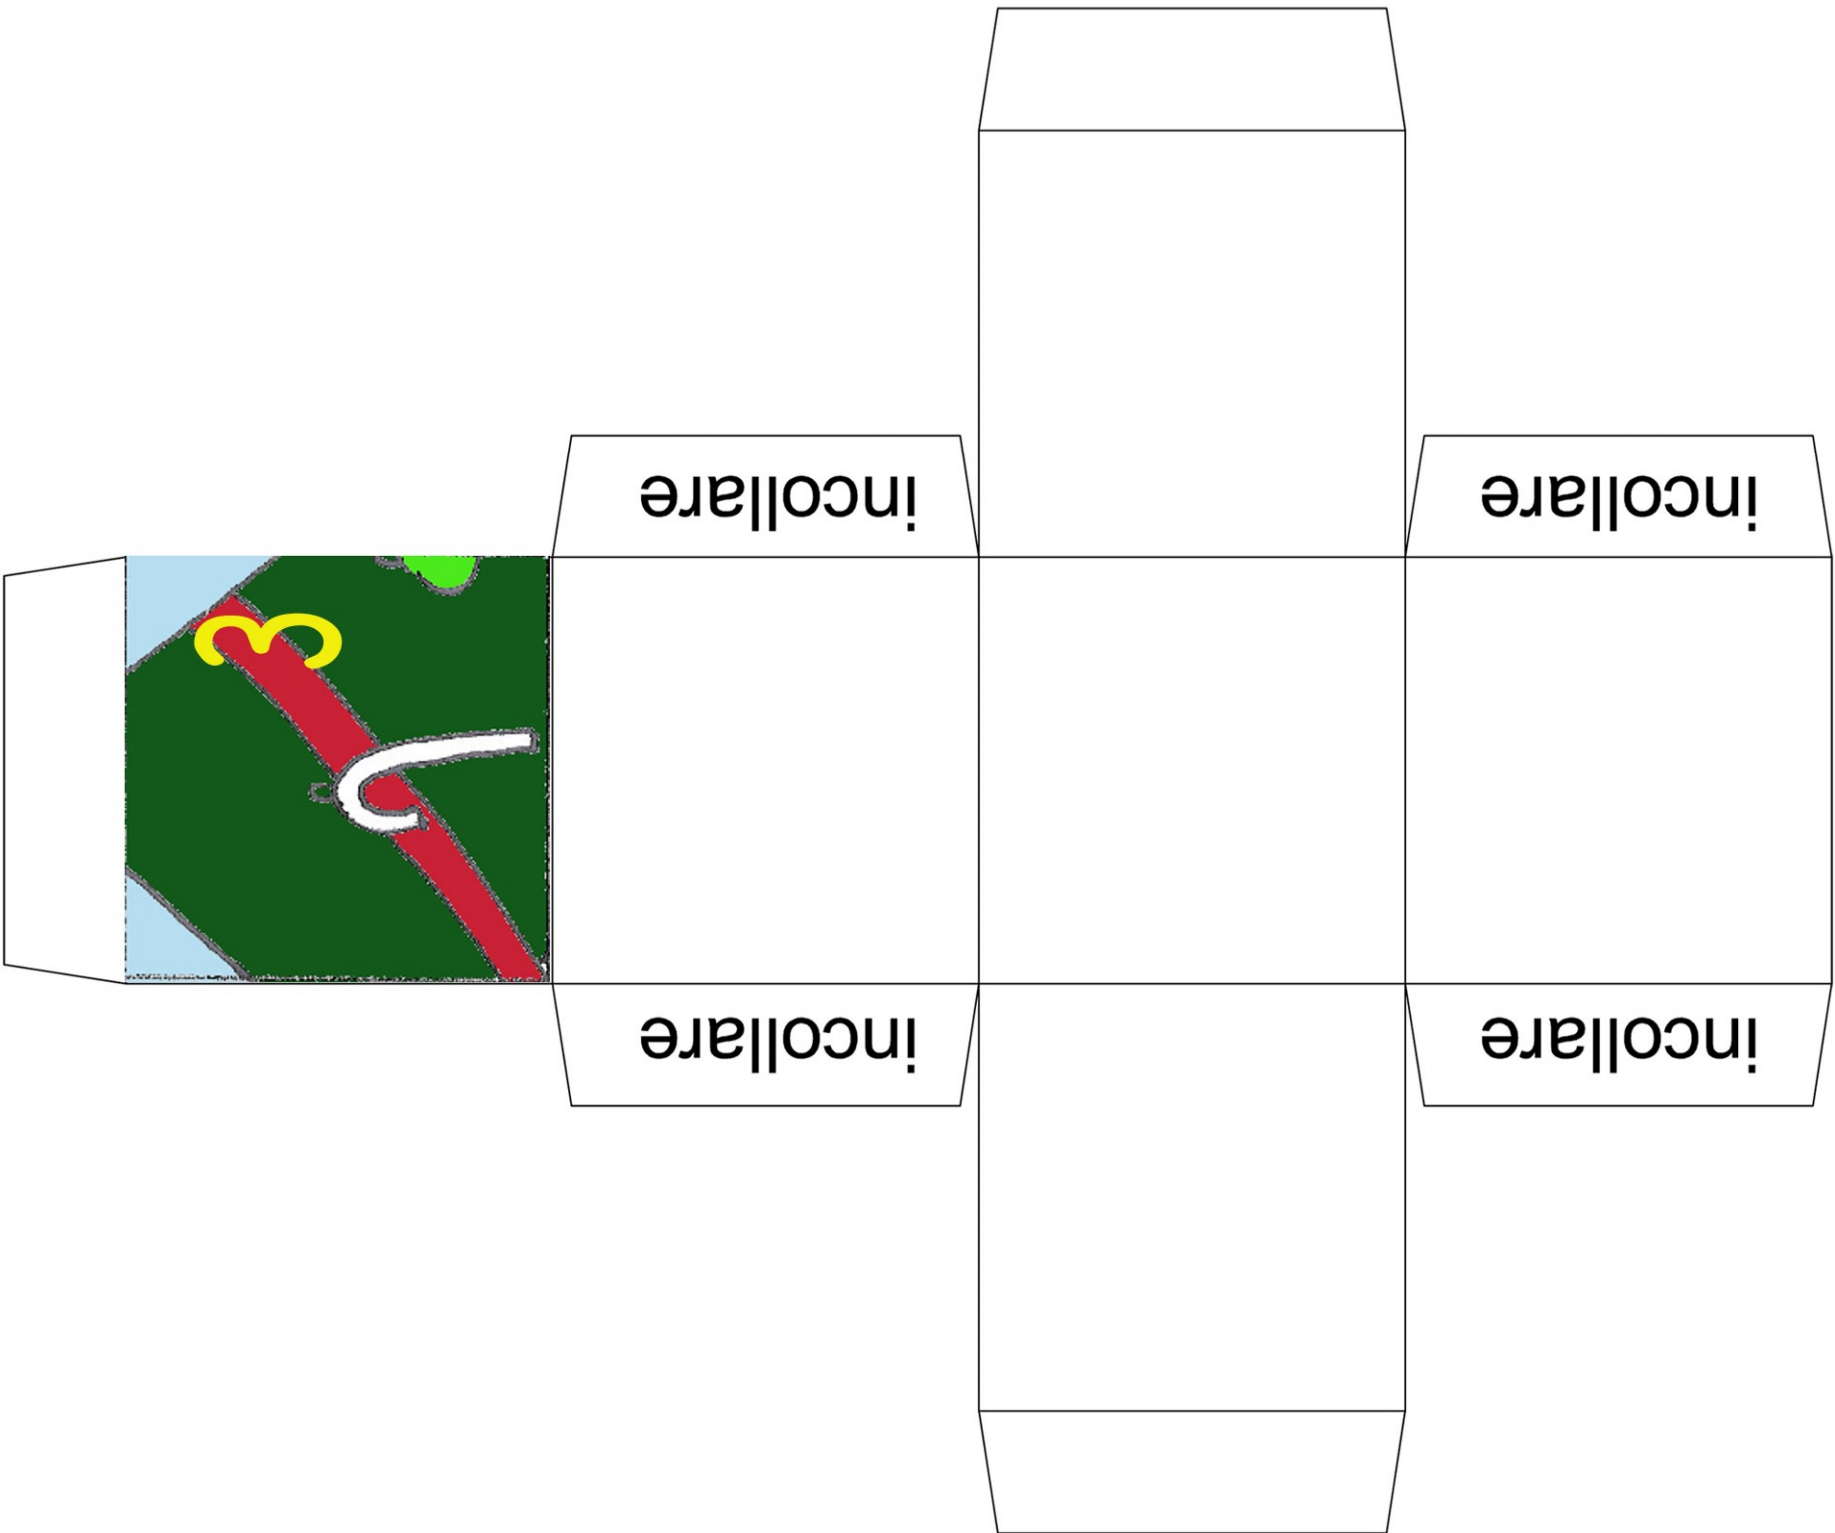

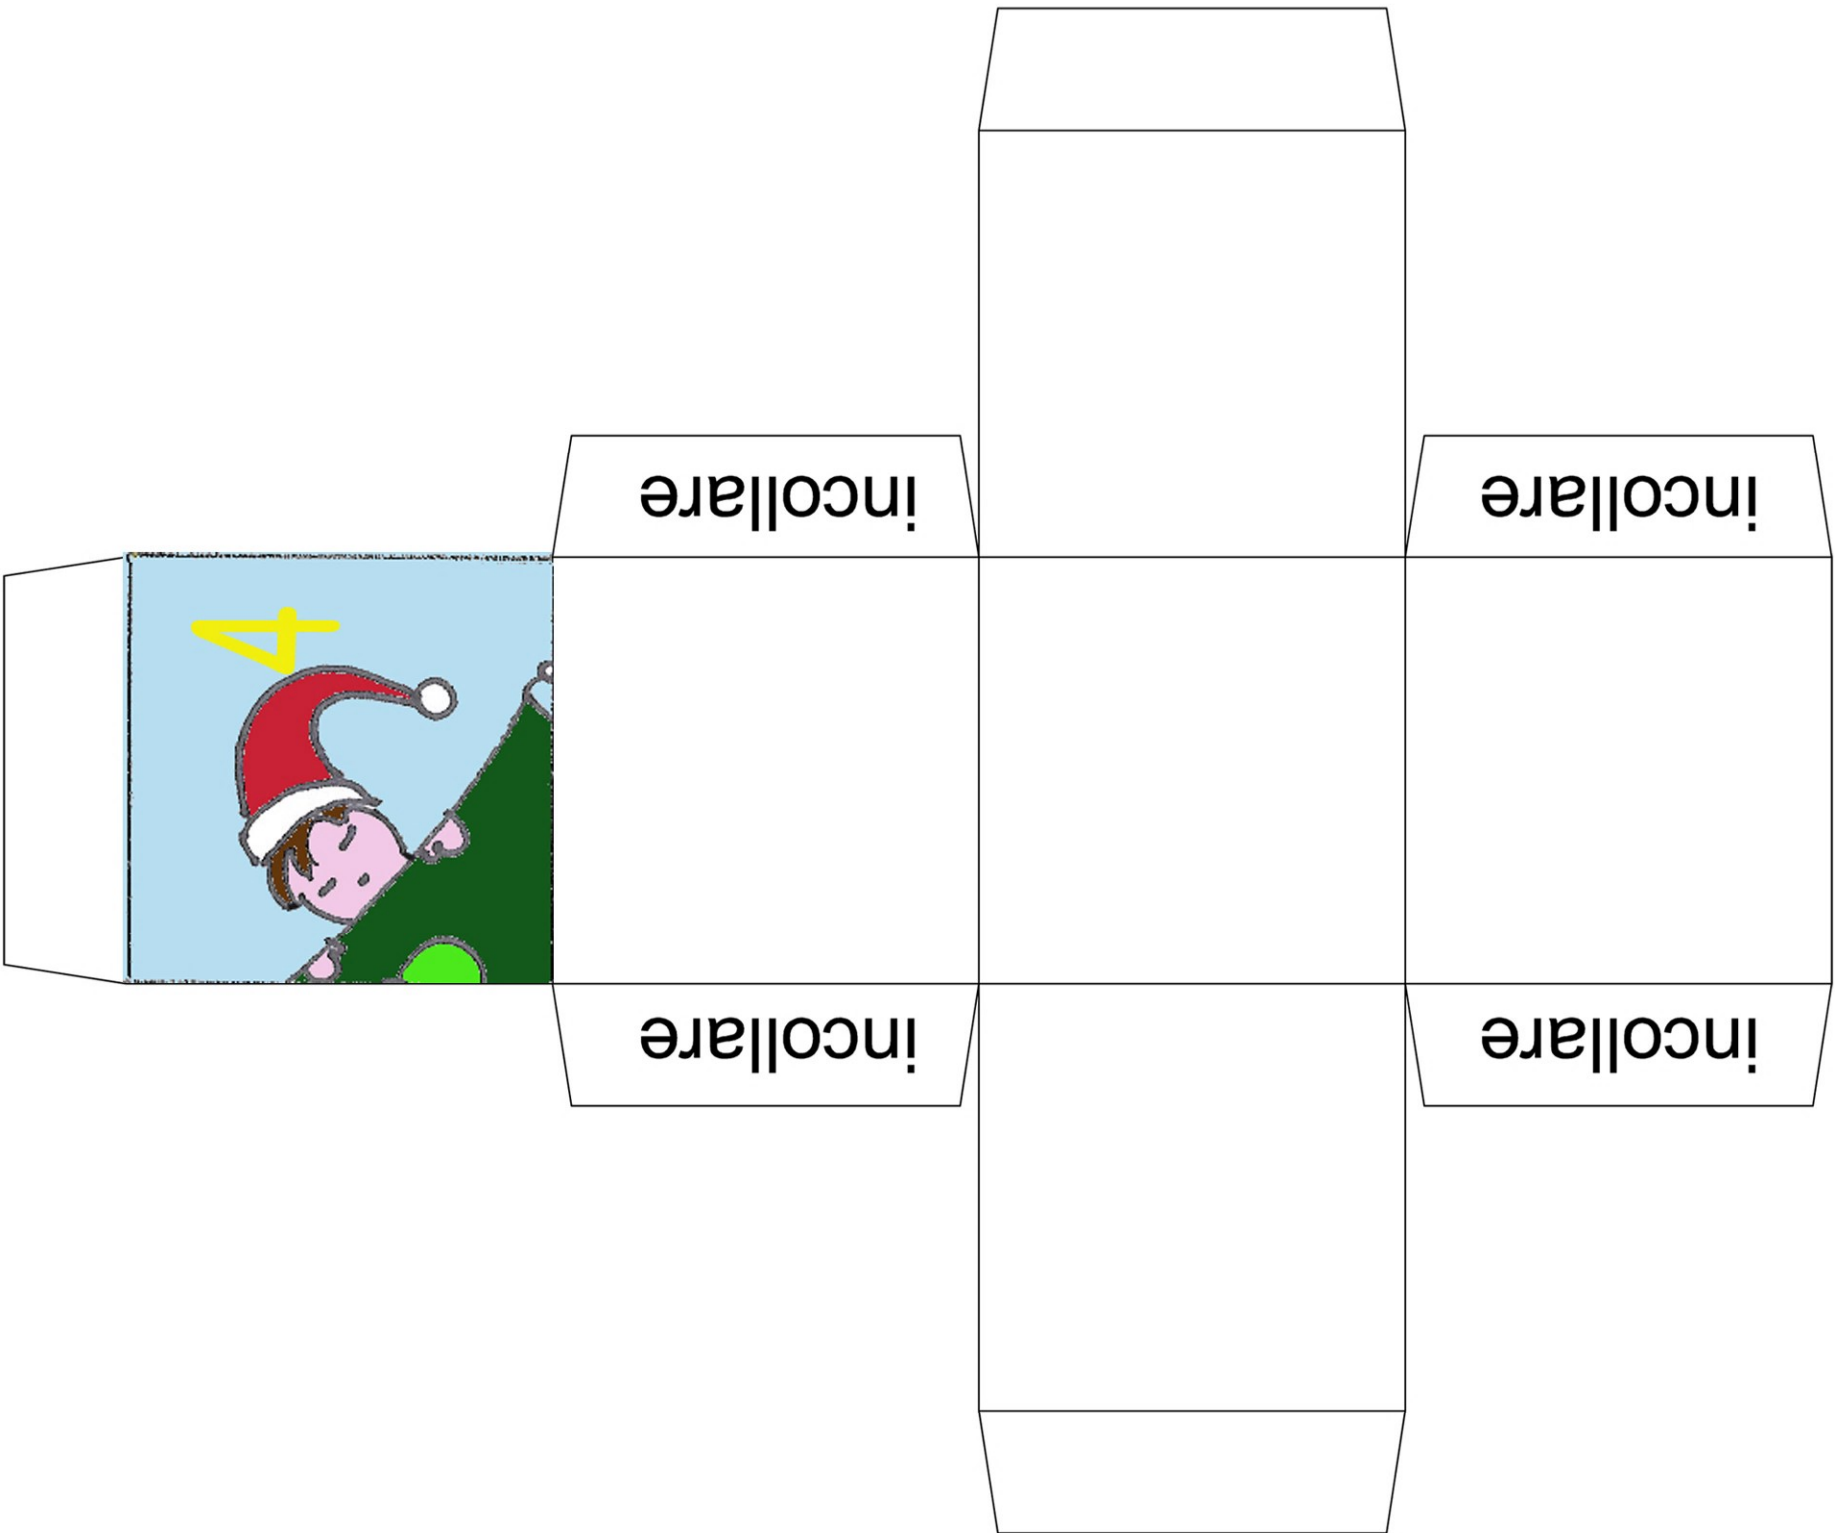

*Schema per assemblare il vostro
Calendario dell'Arvento*

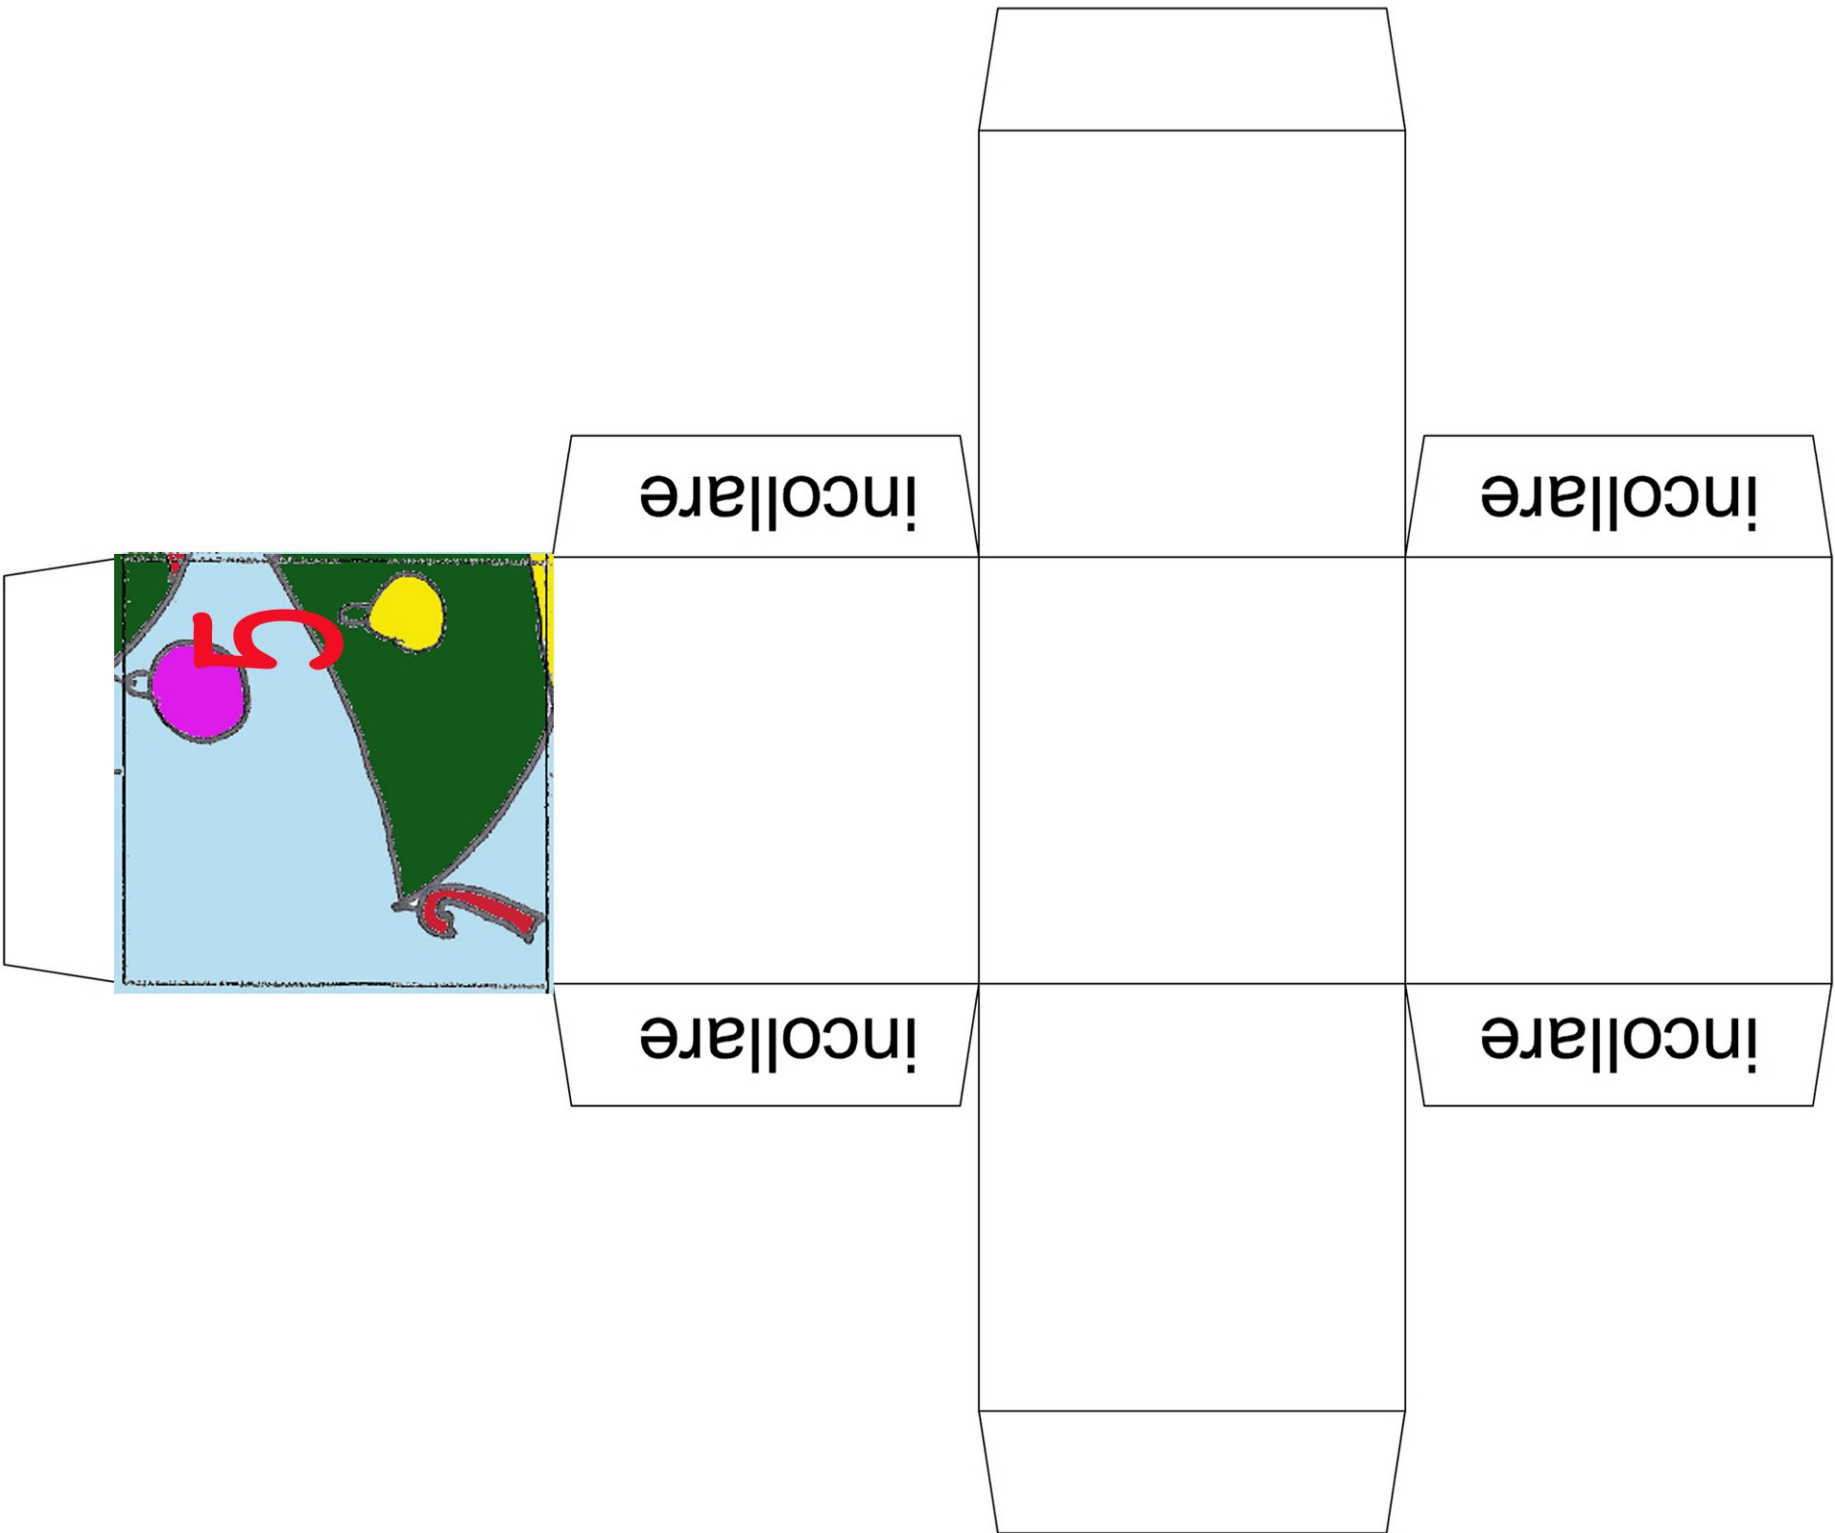

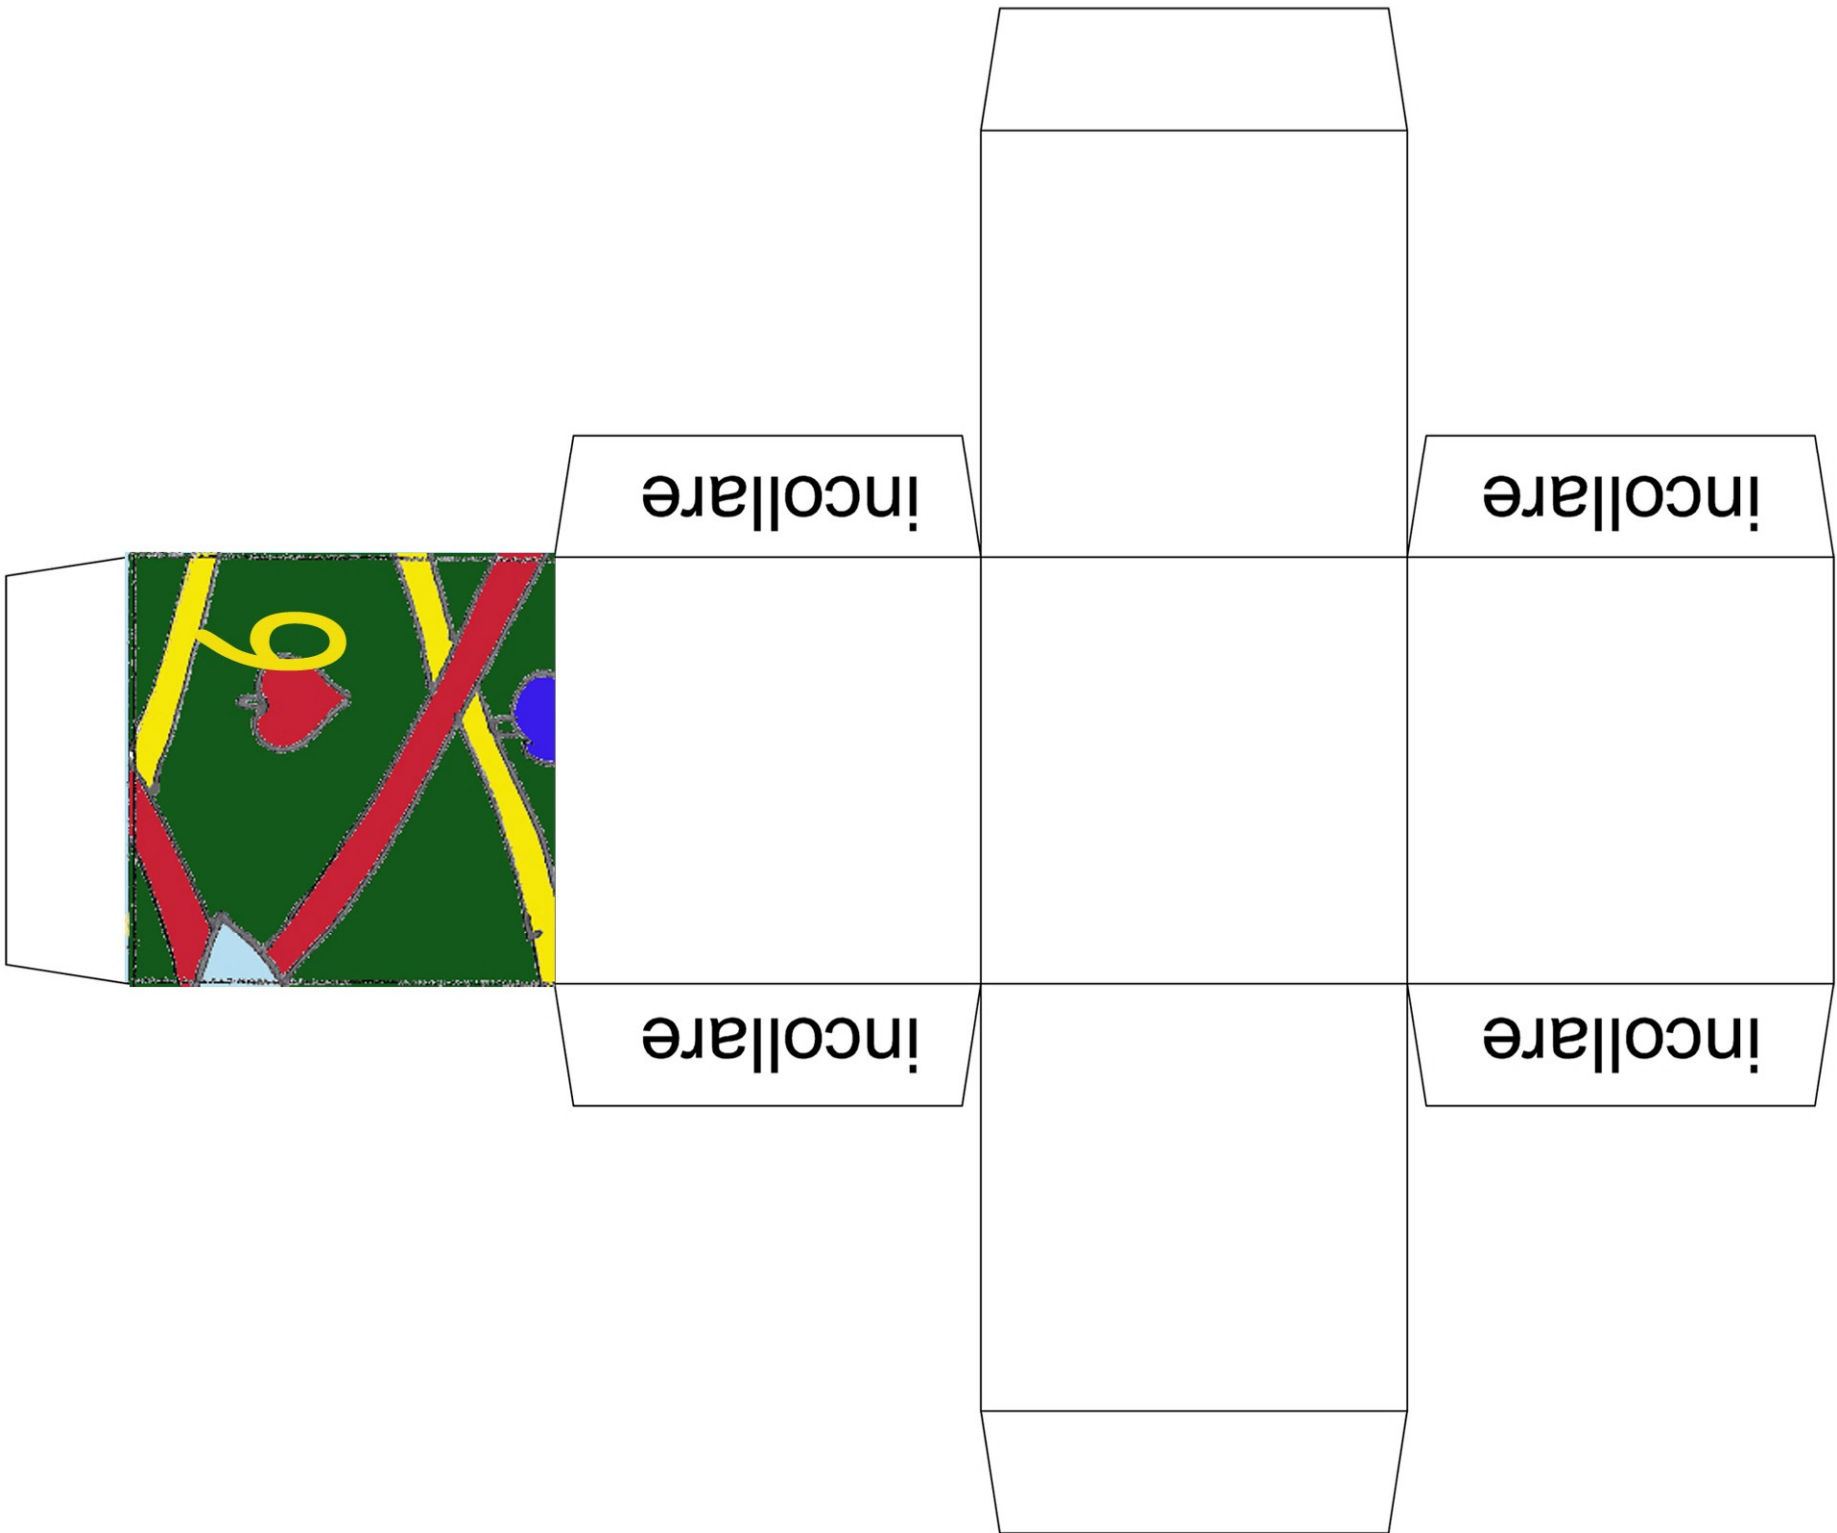

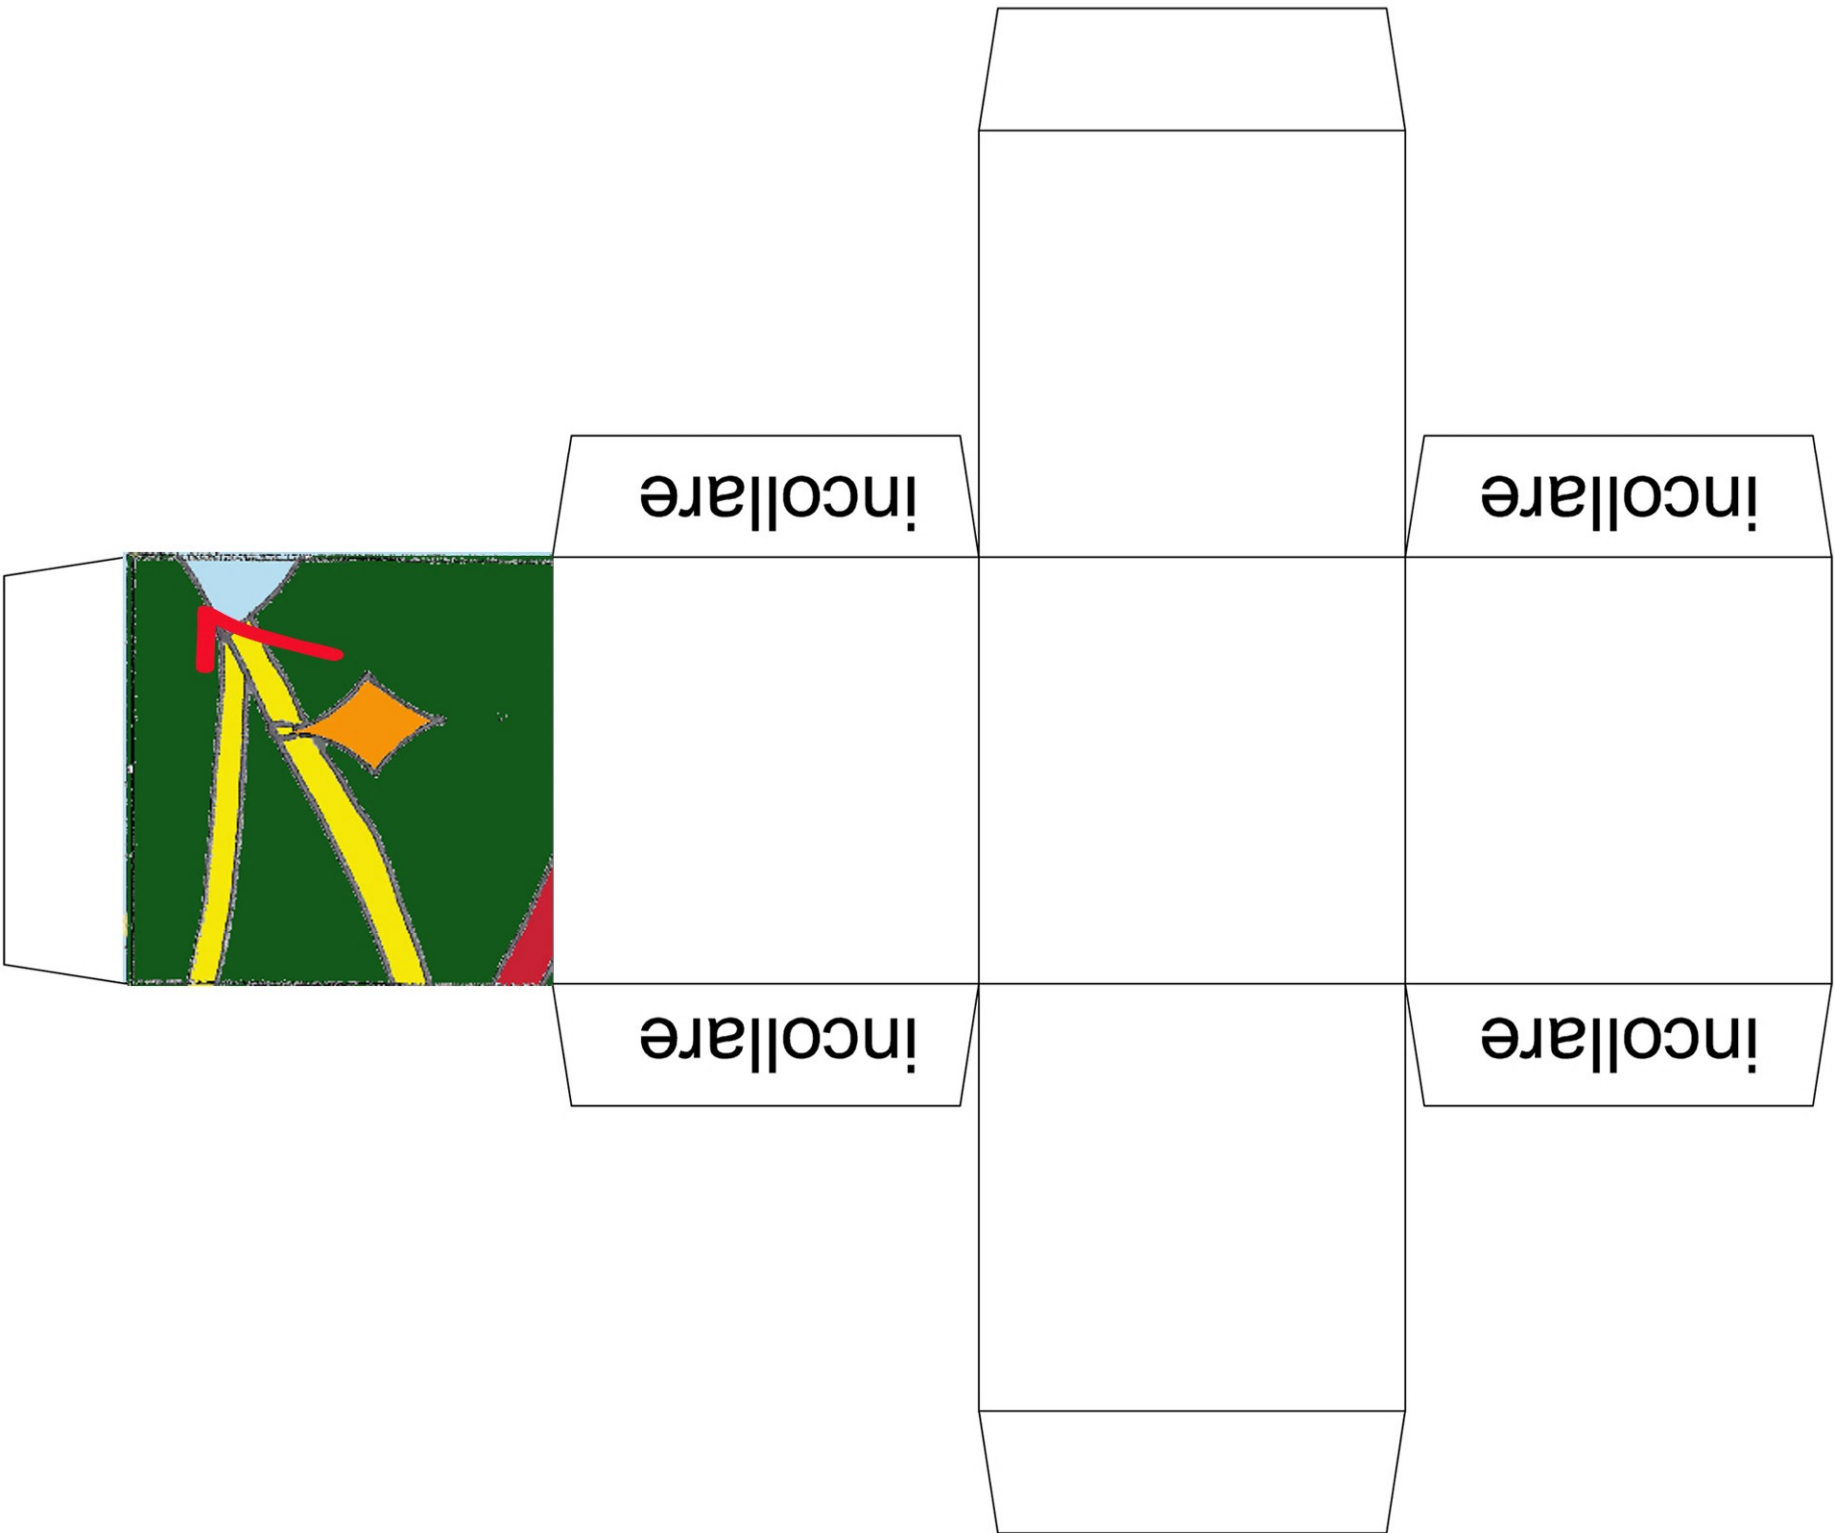

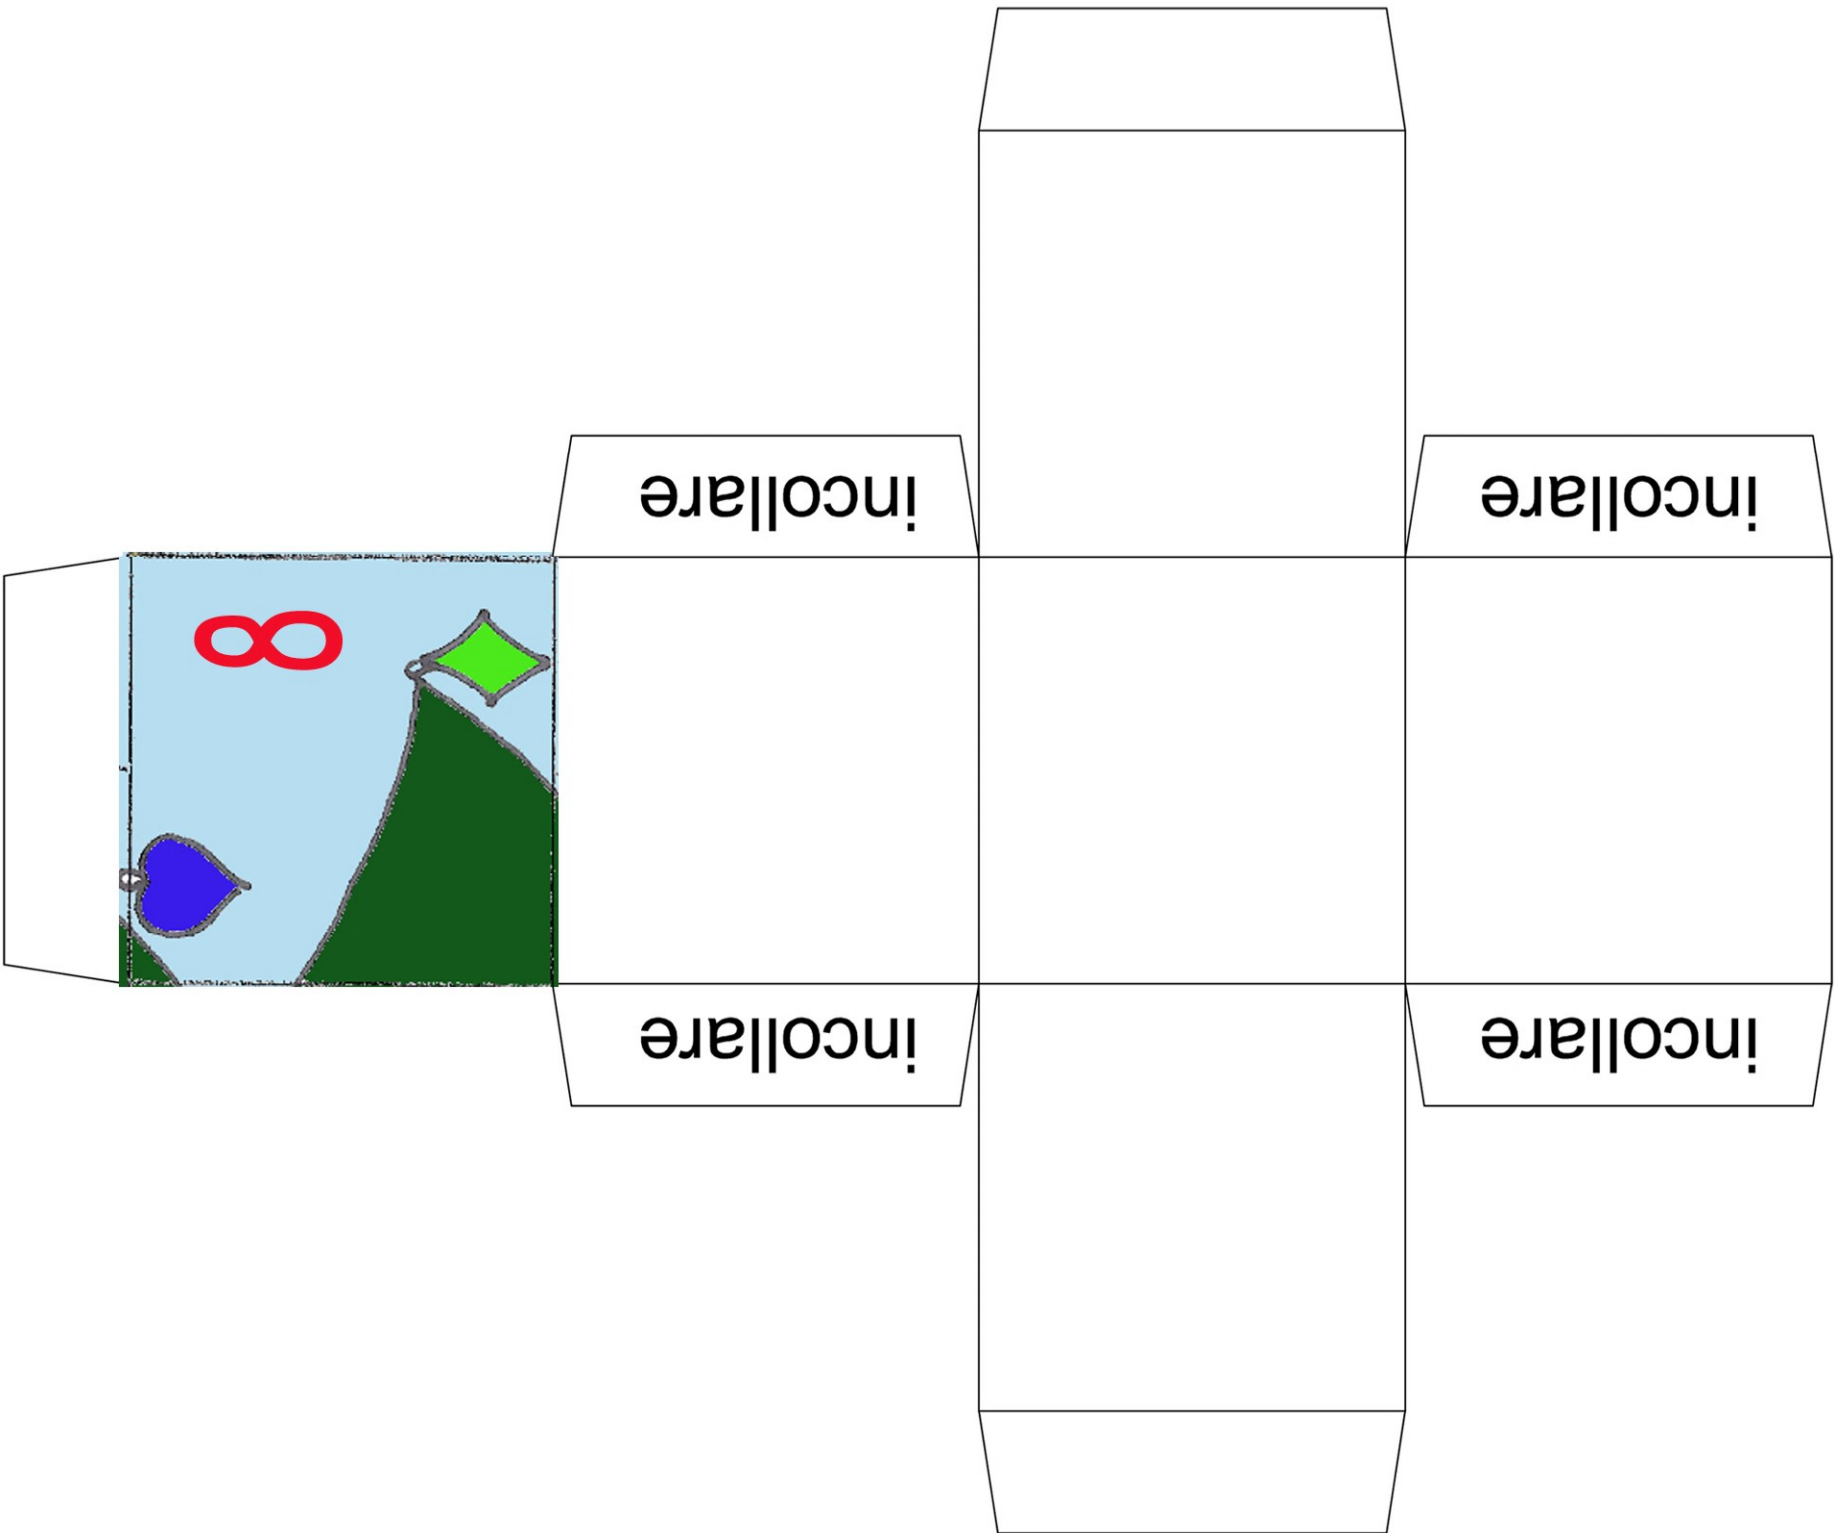

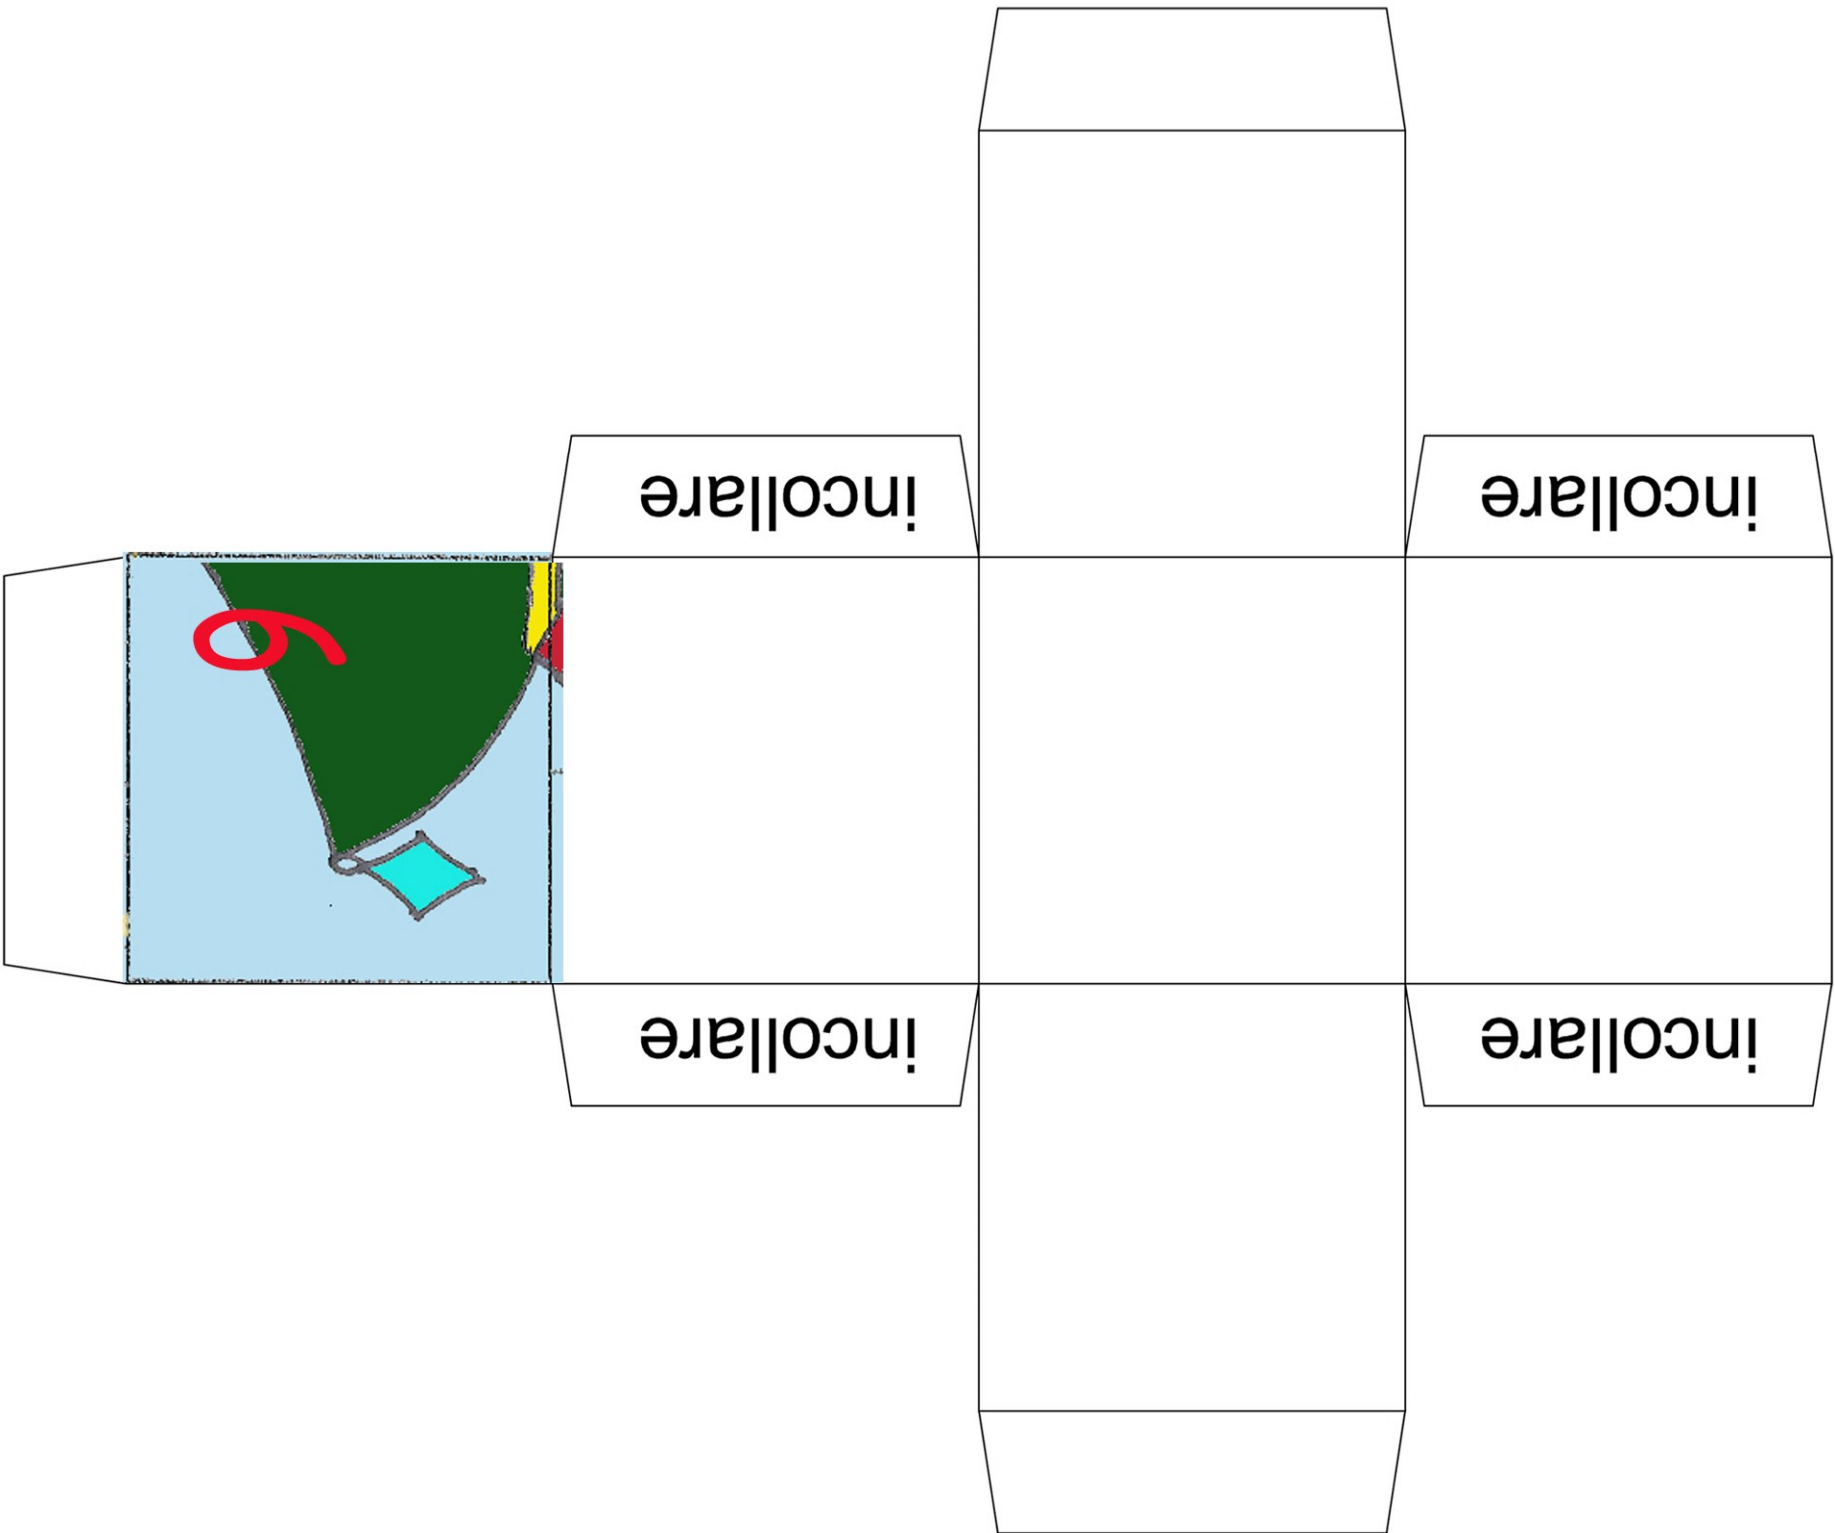

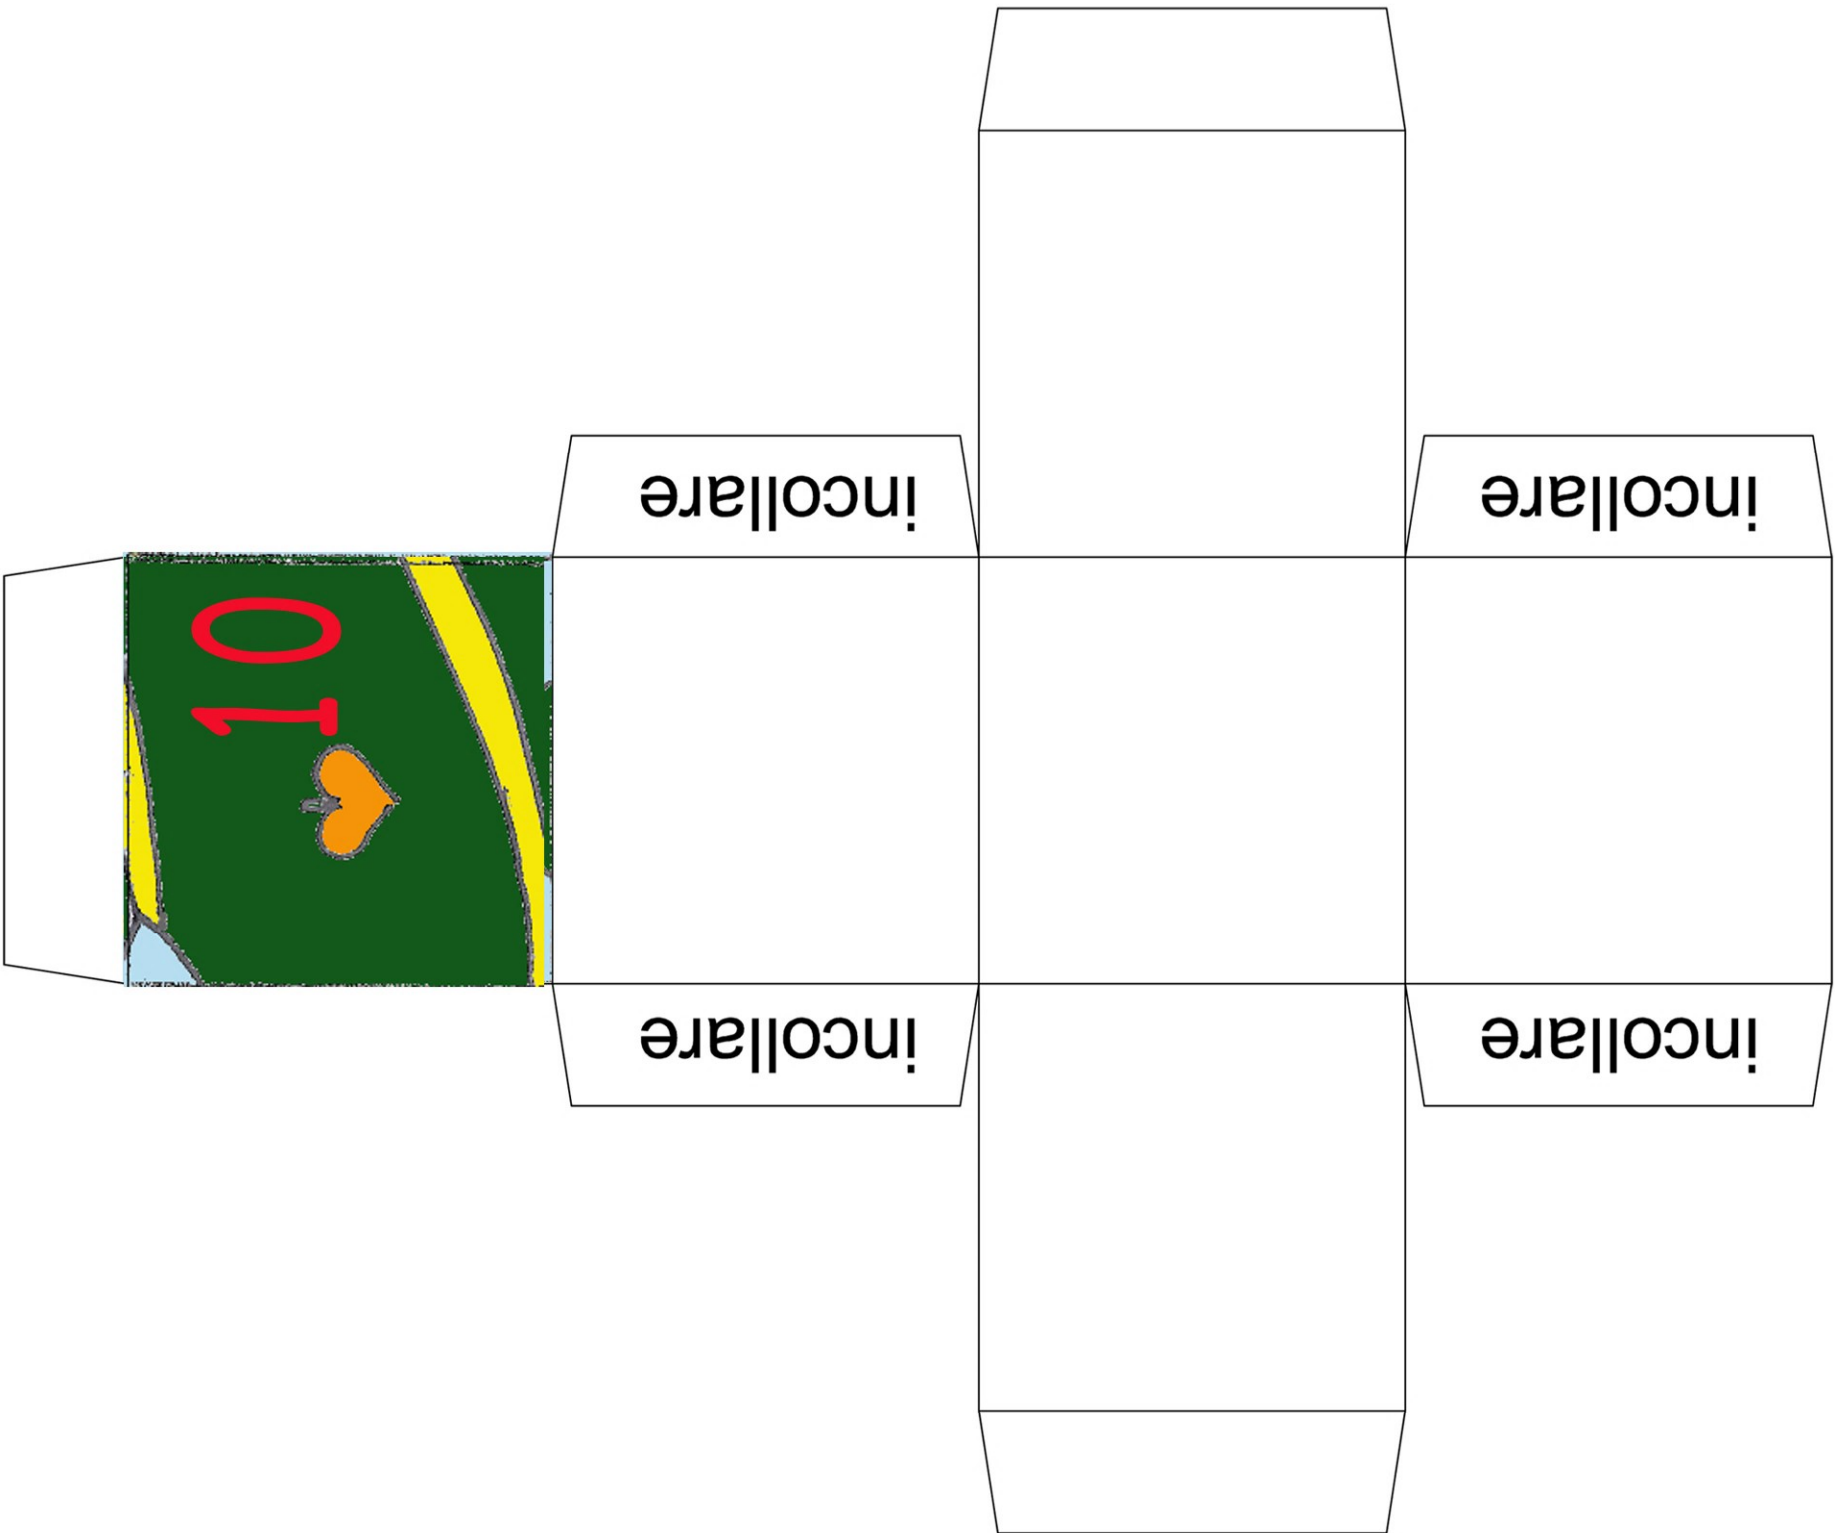

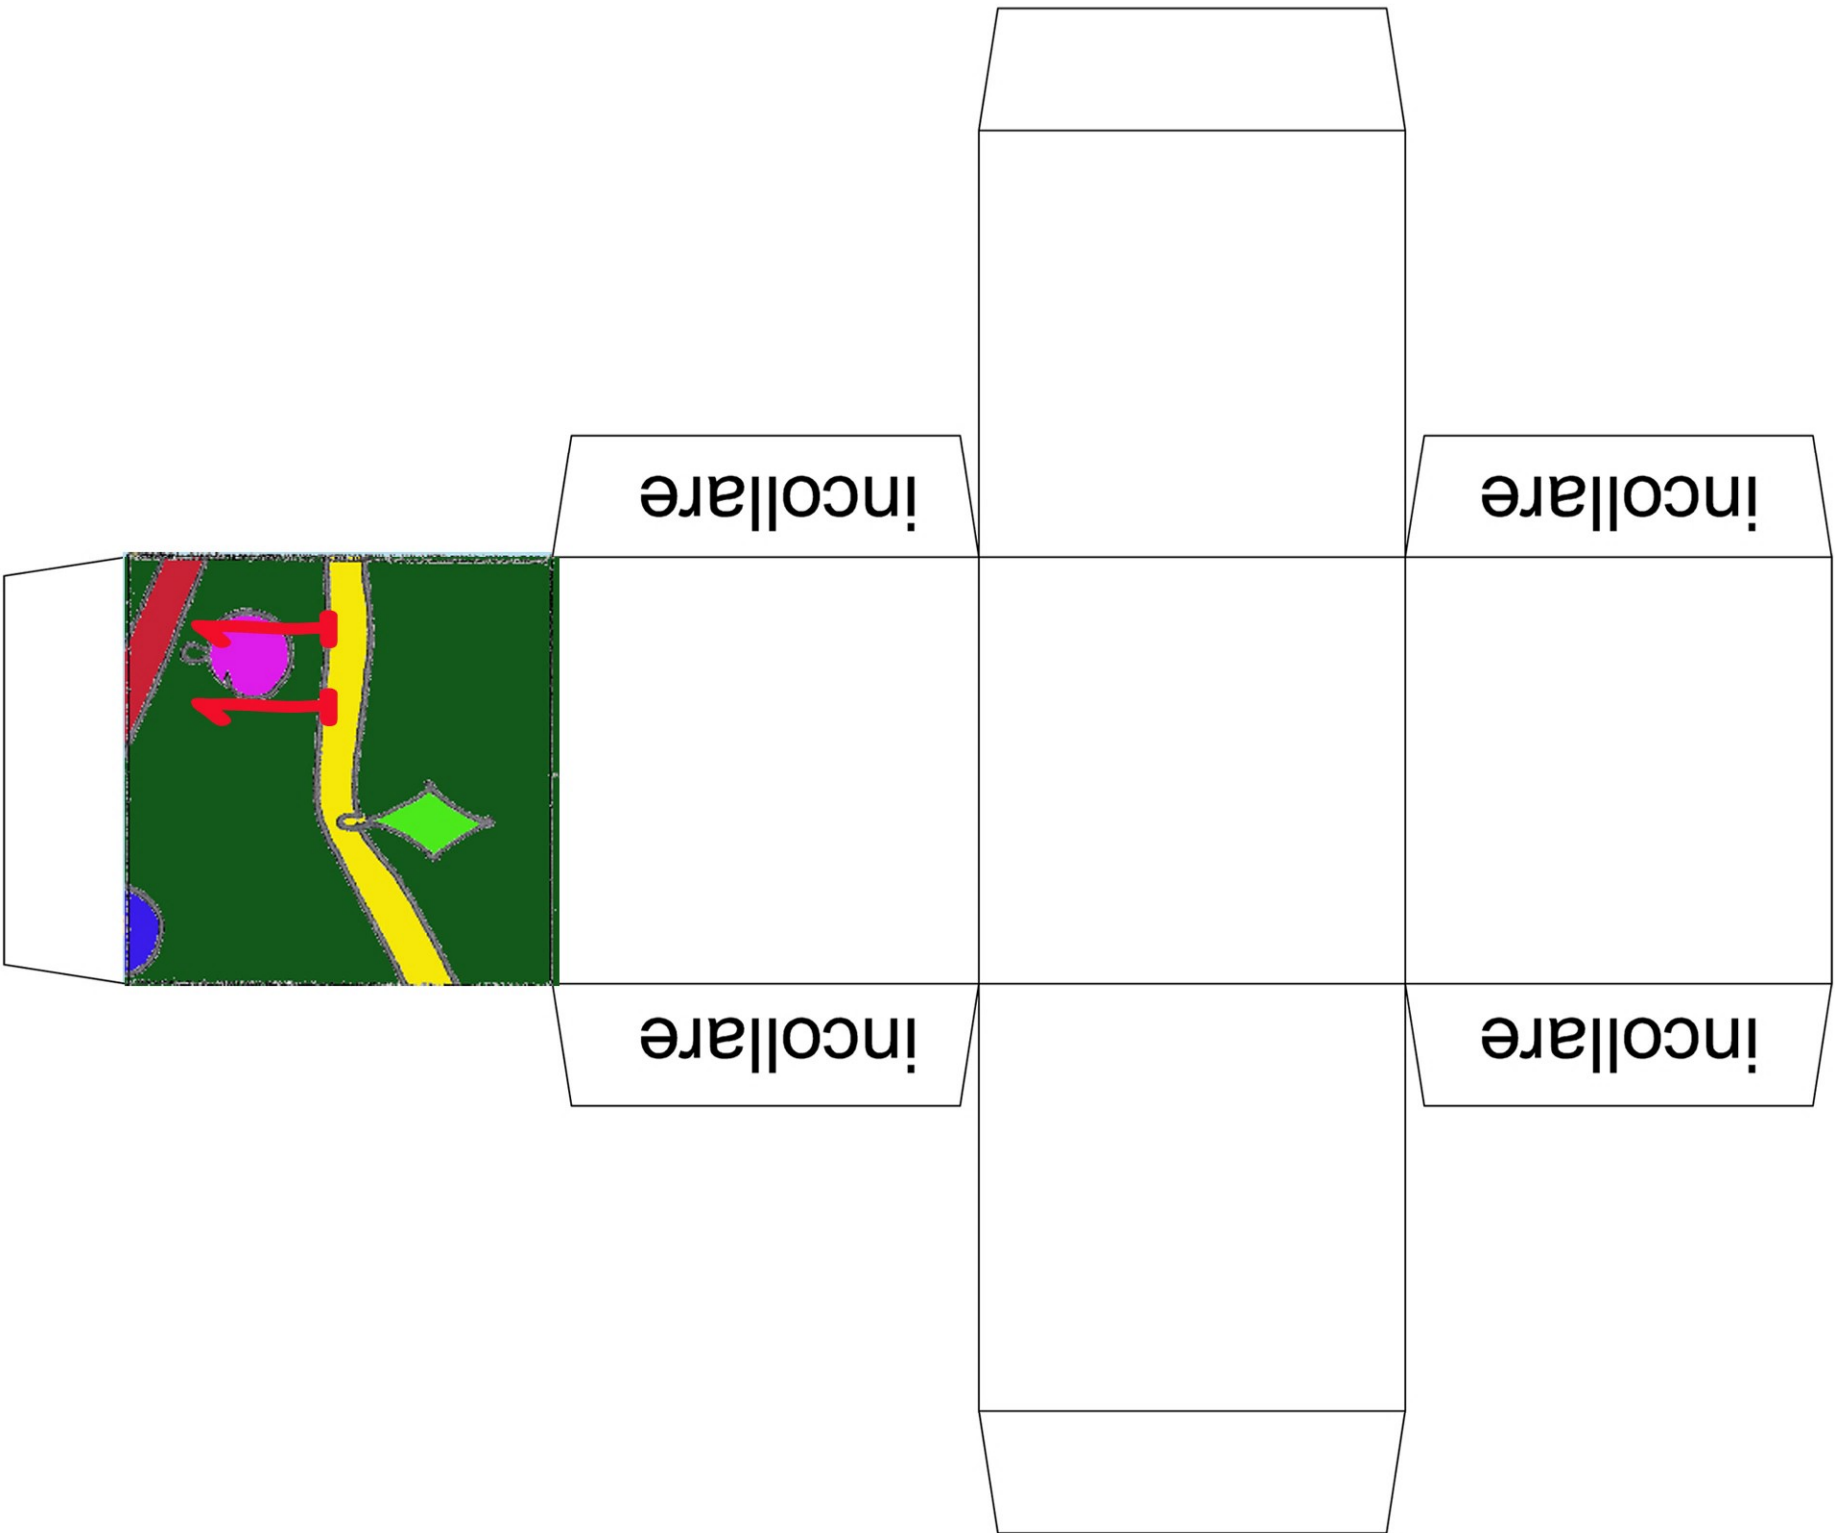

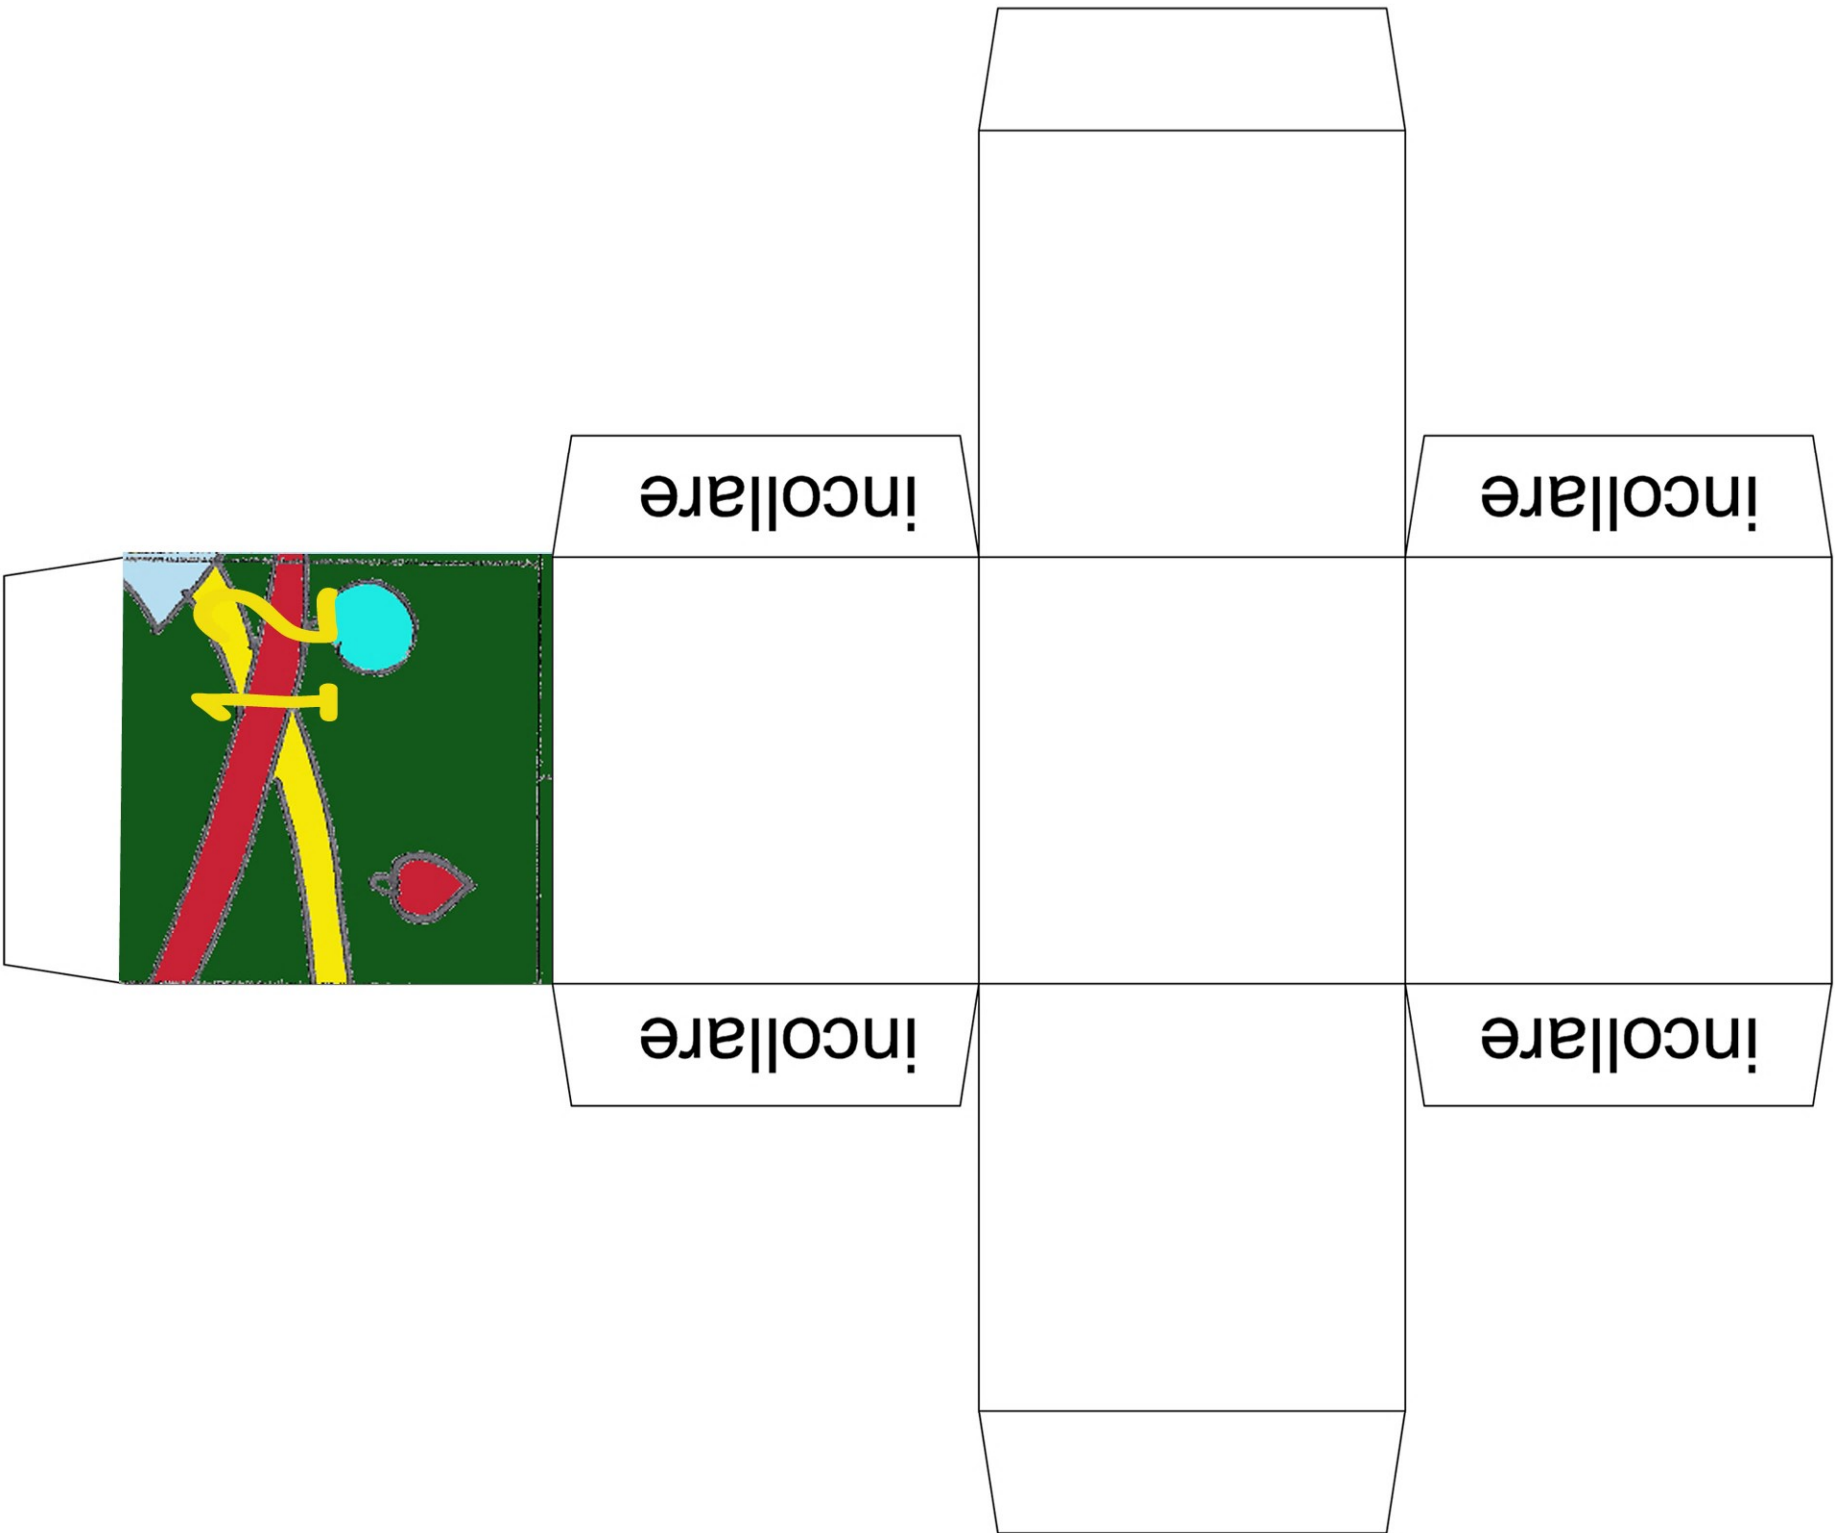

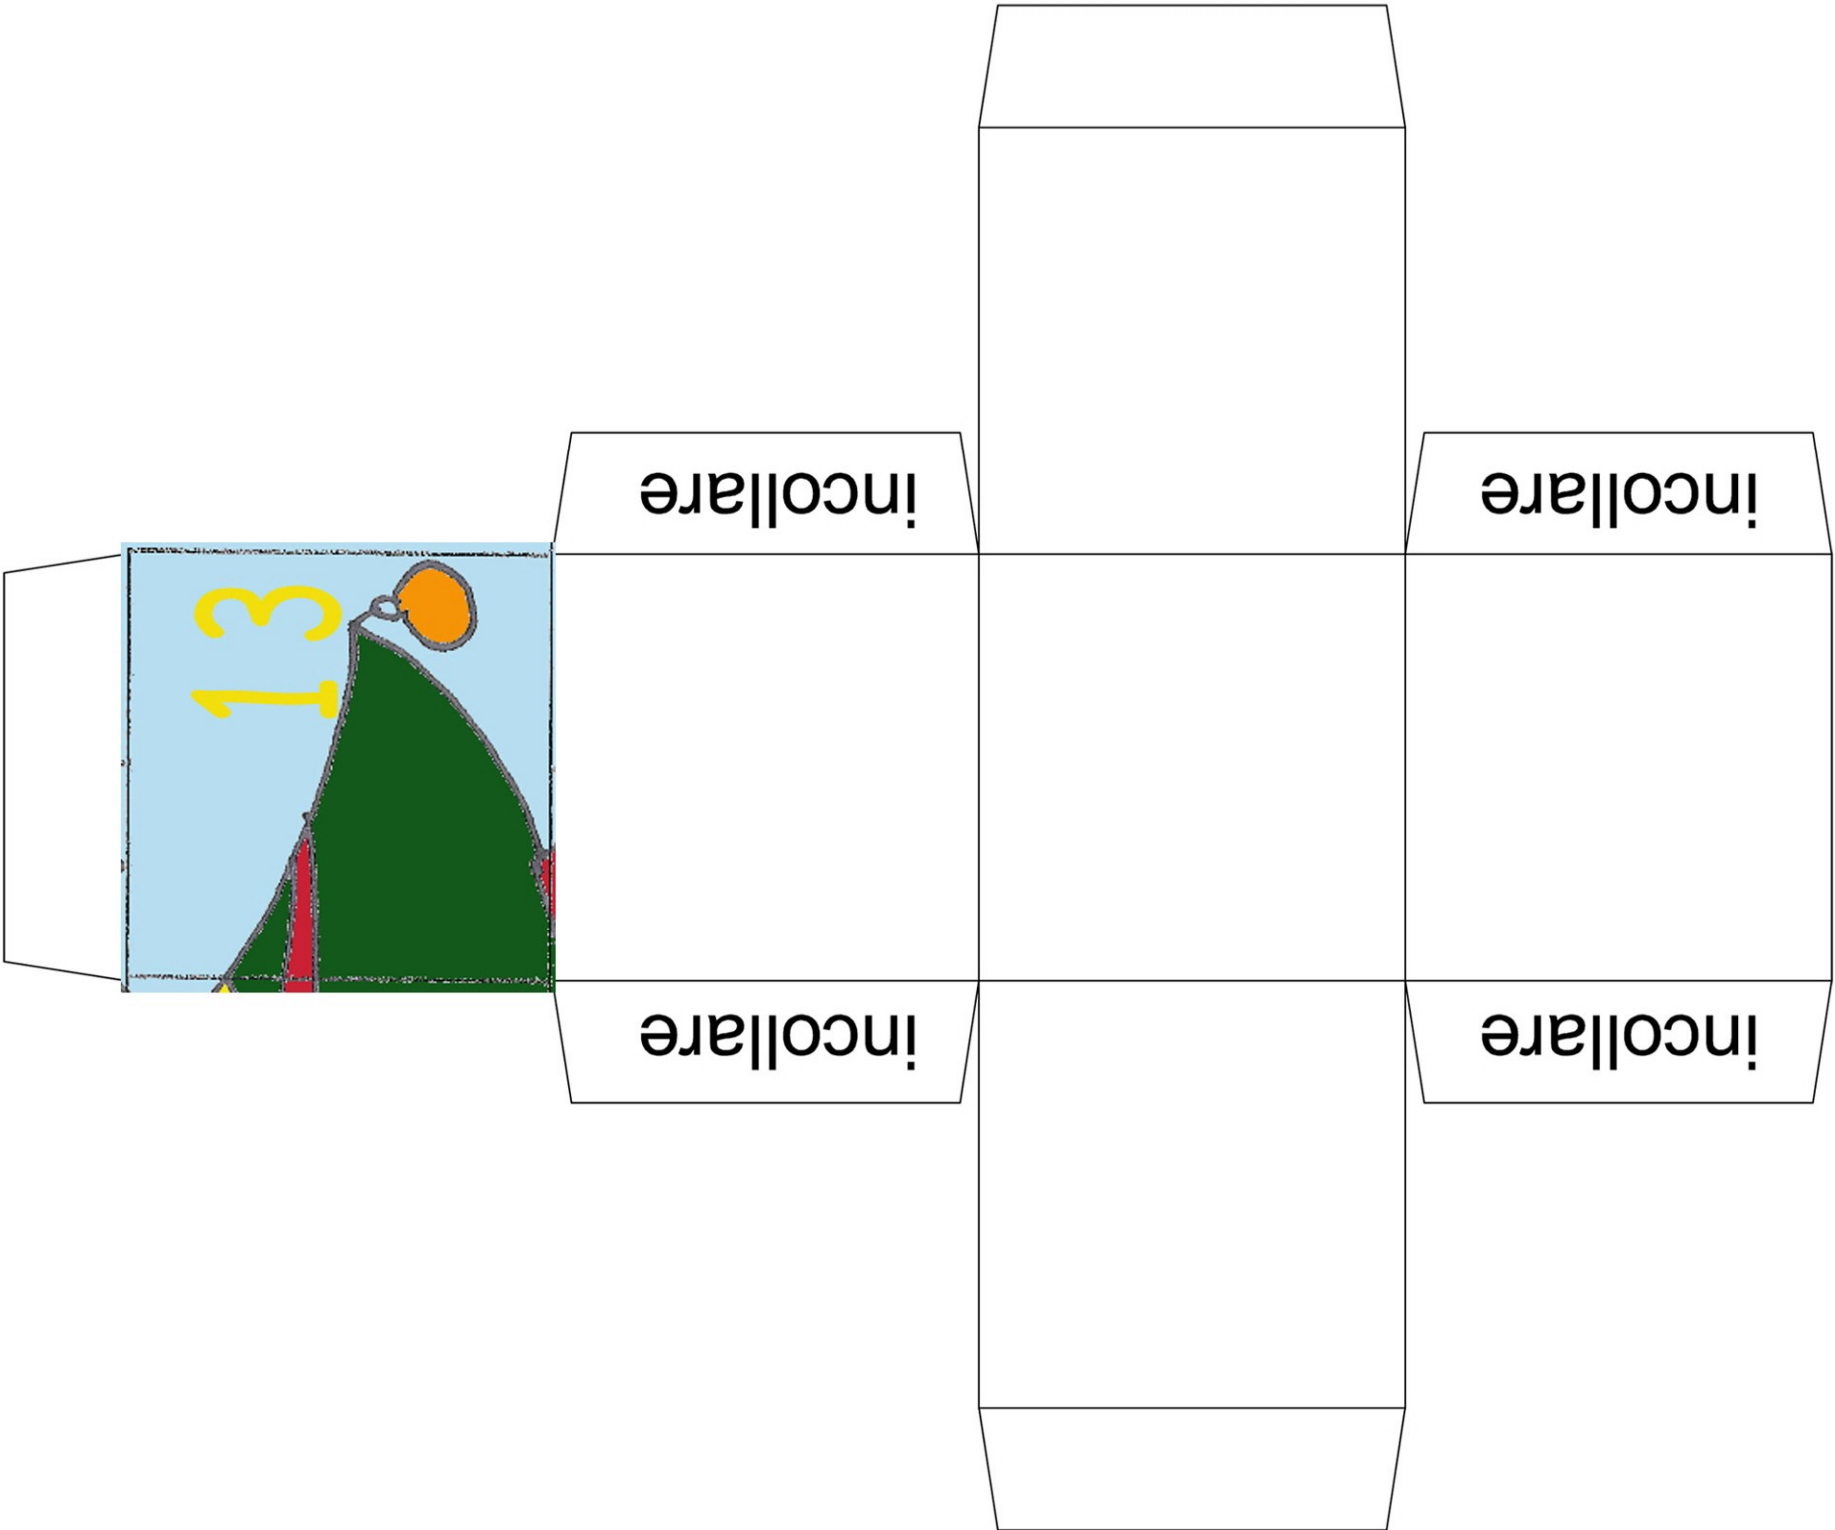

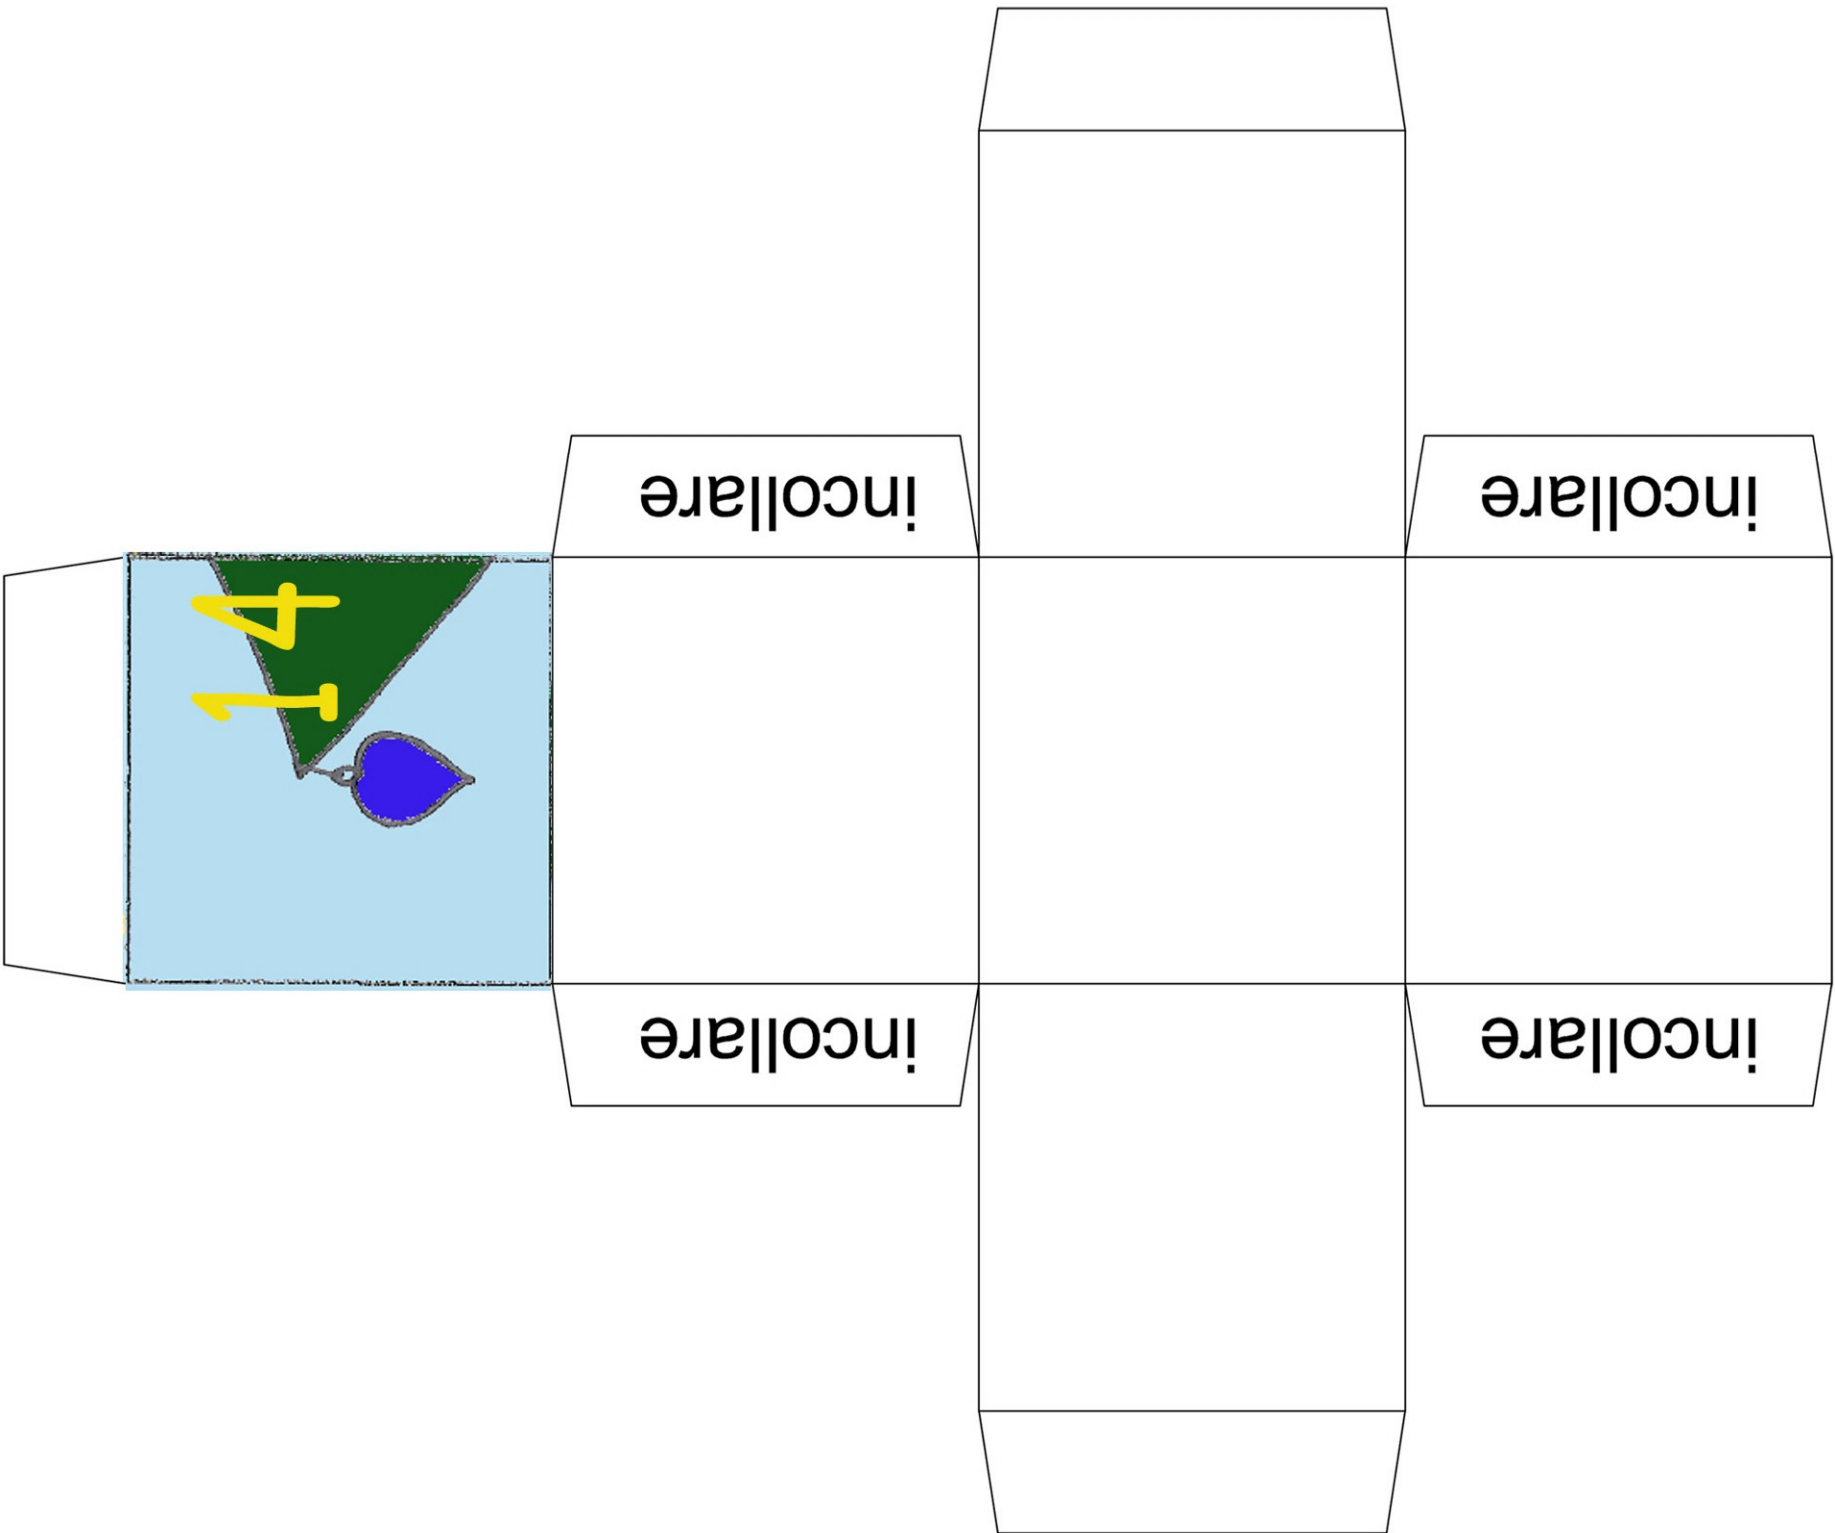

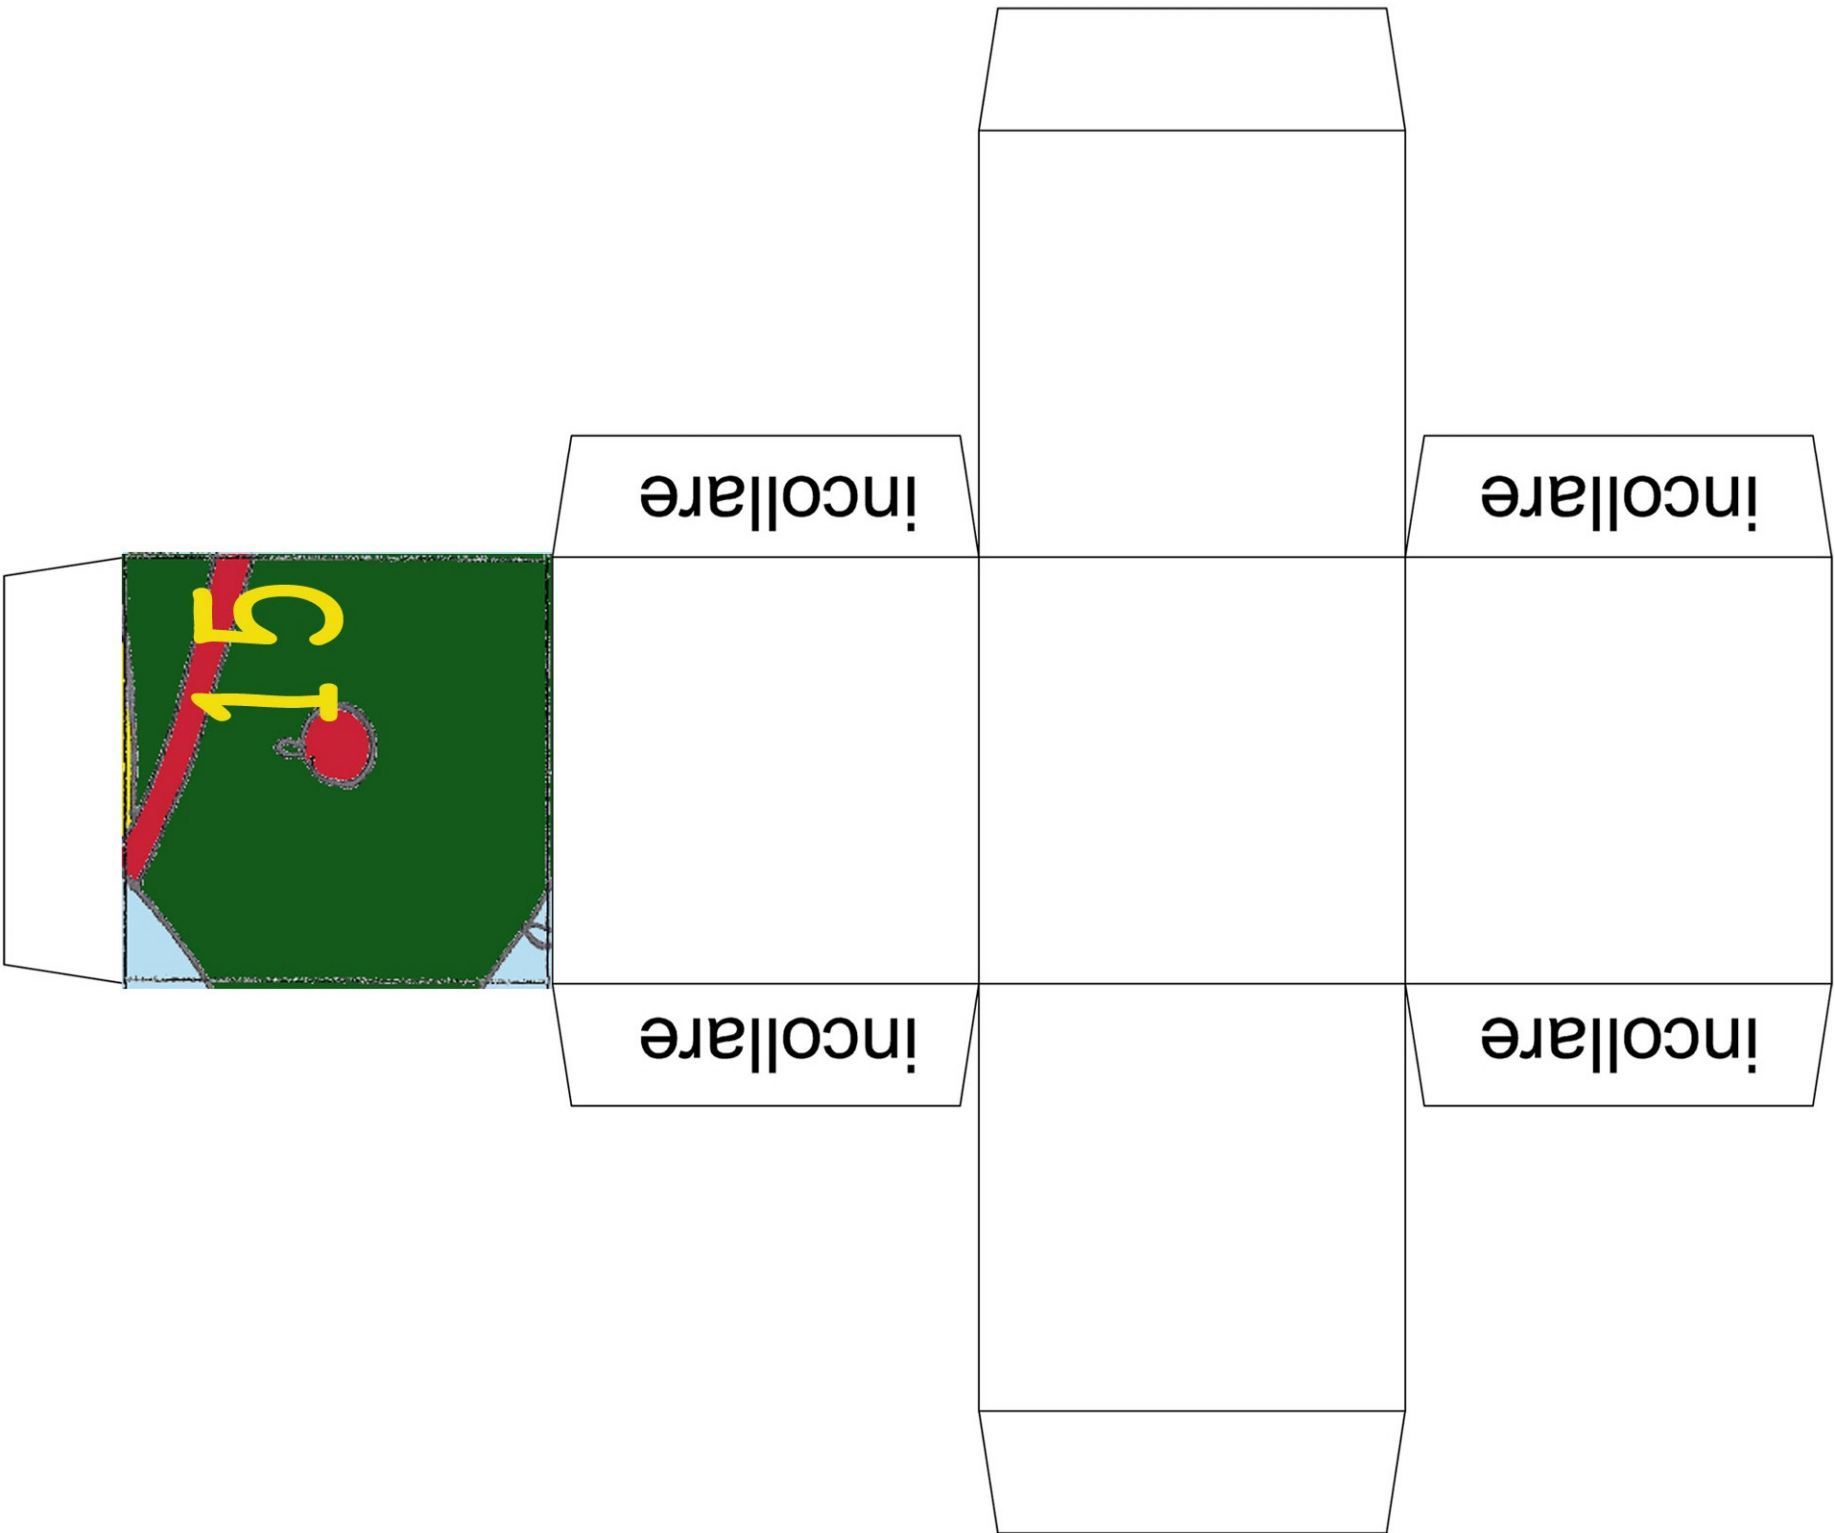

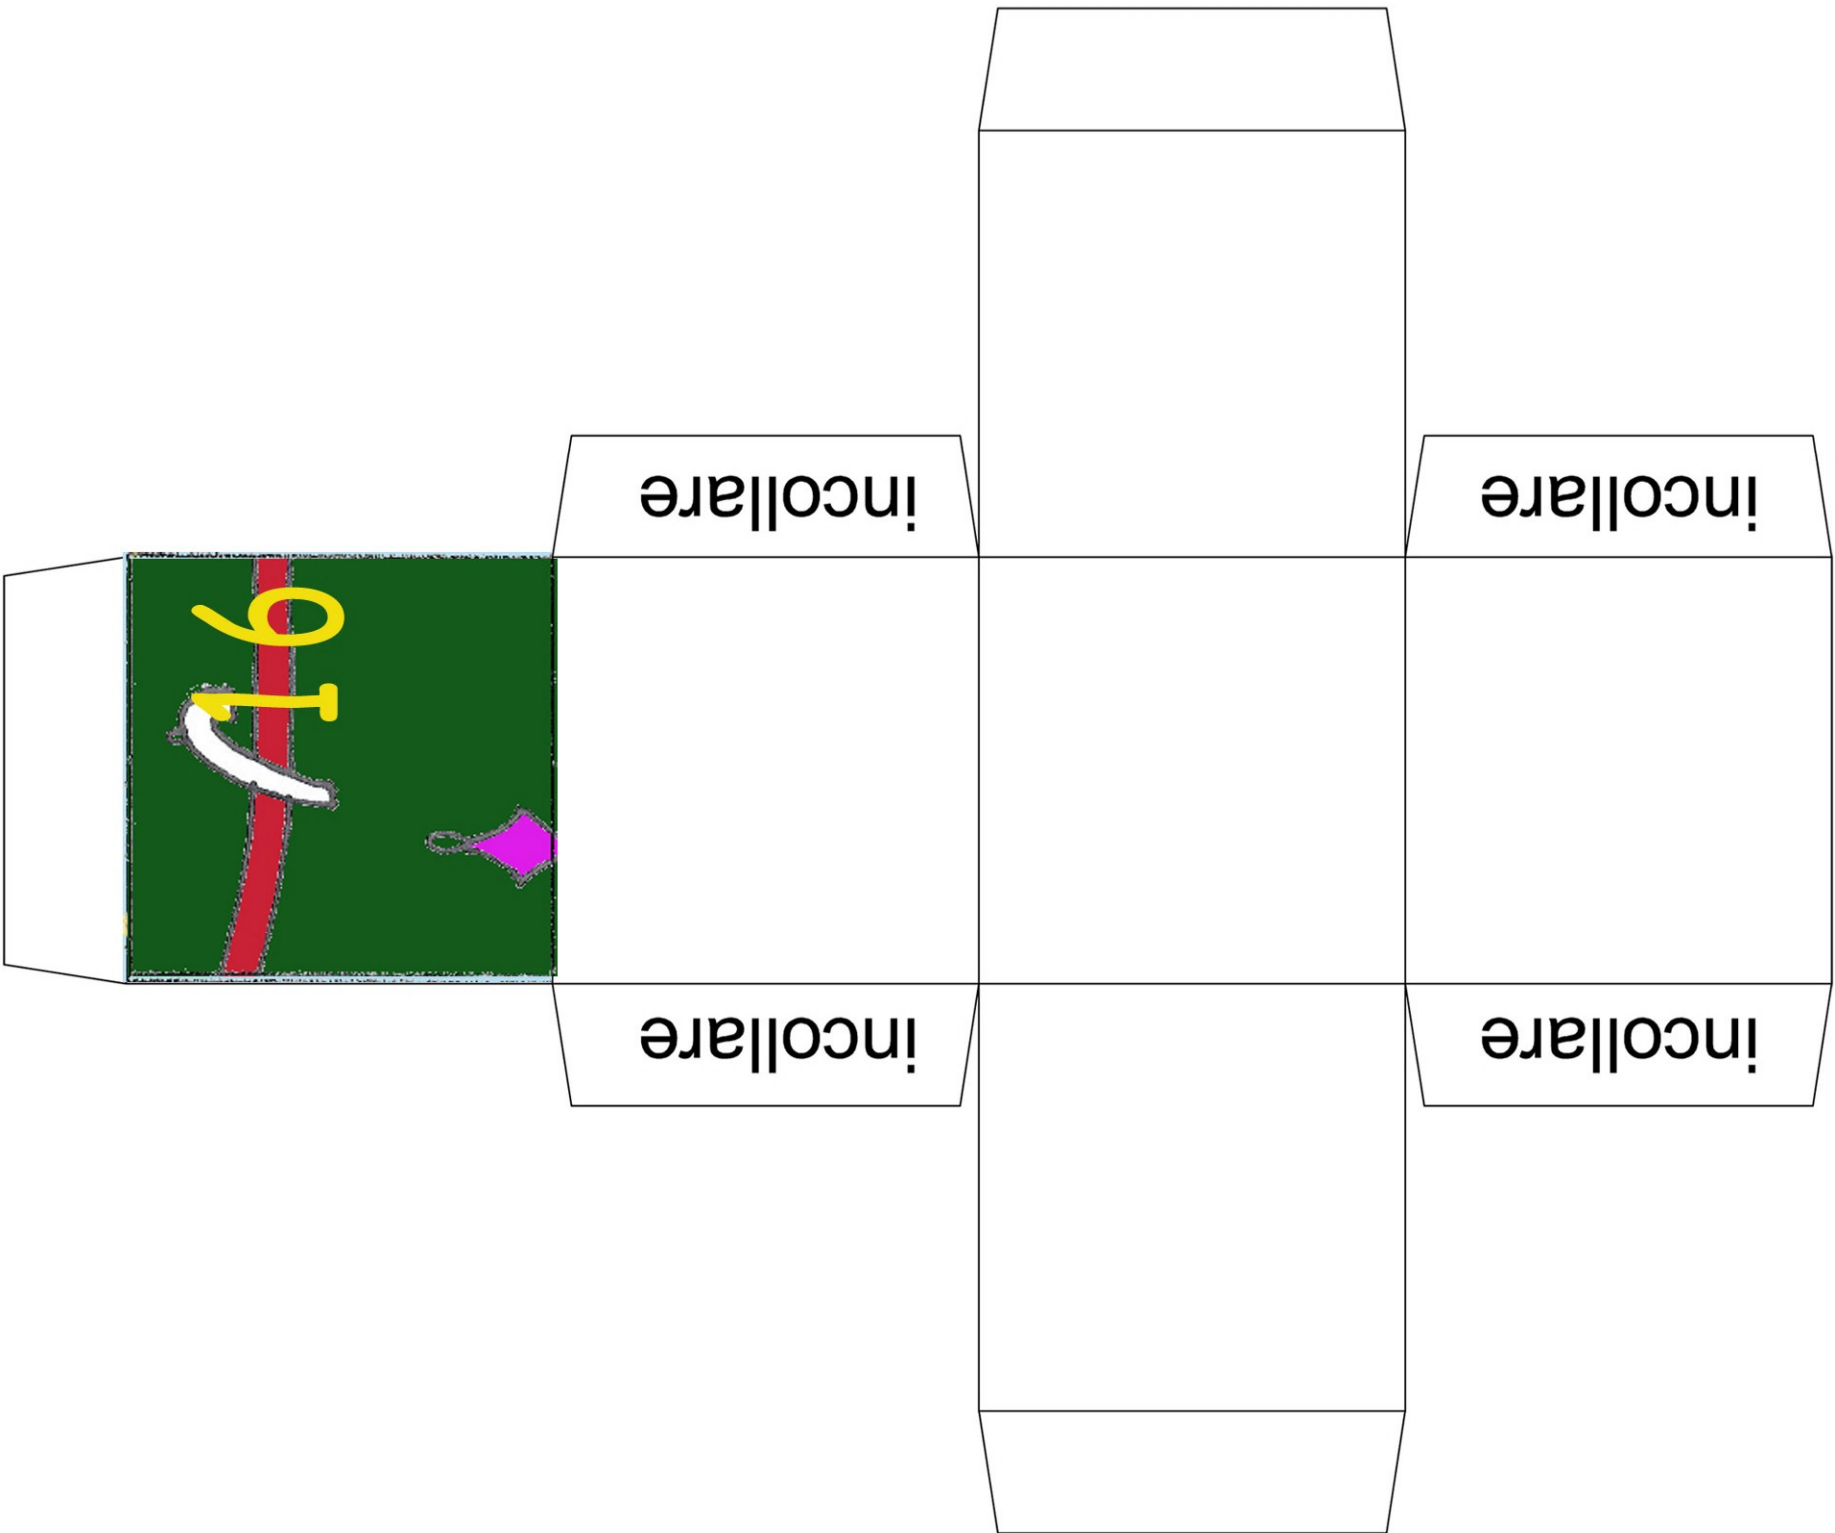

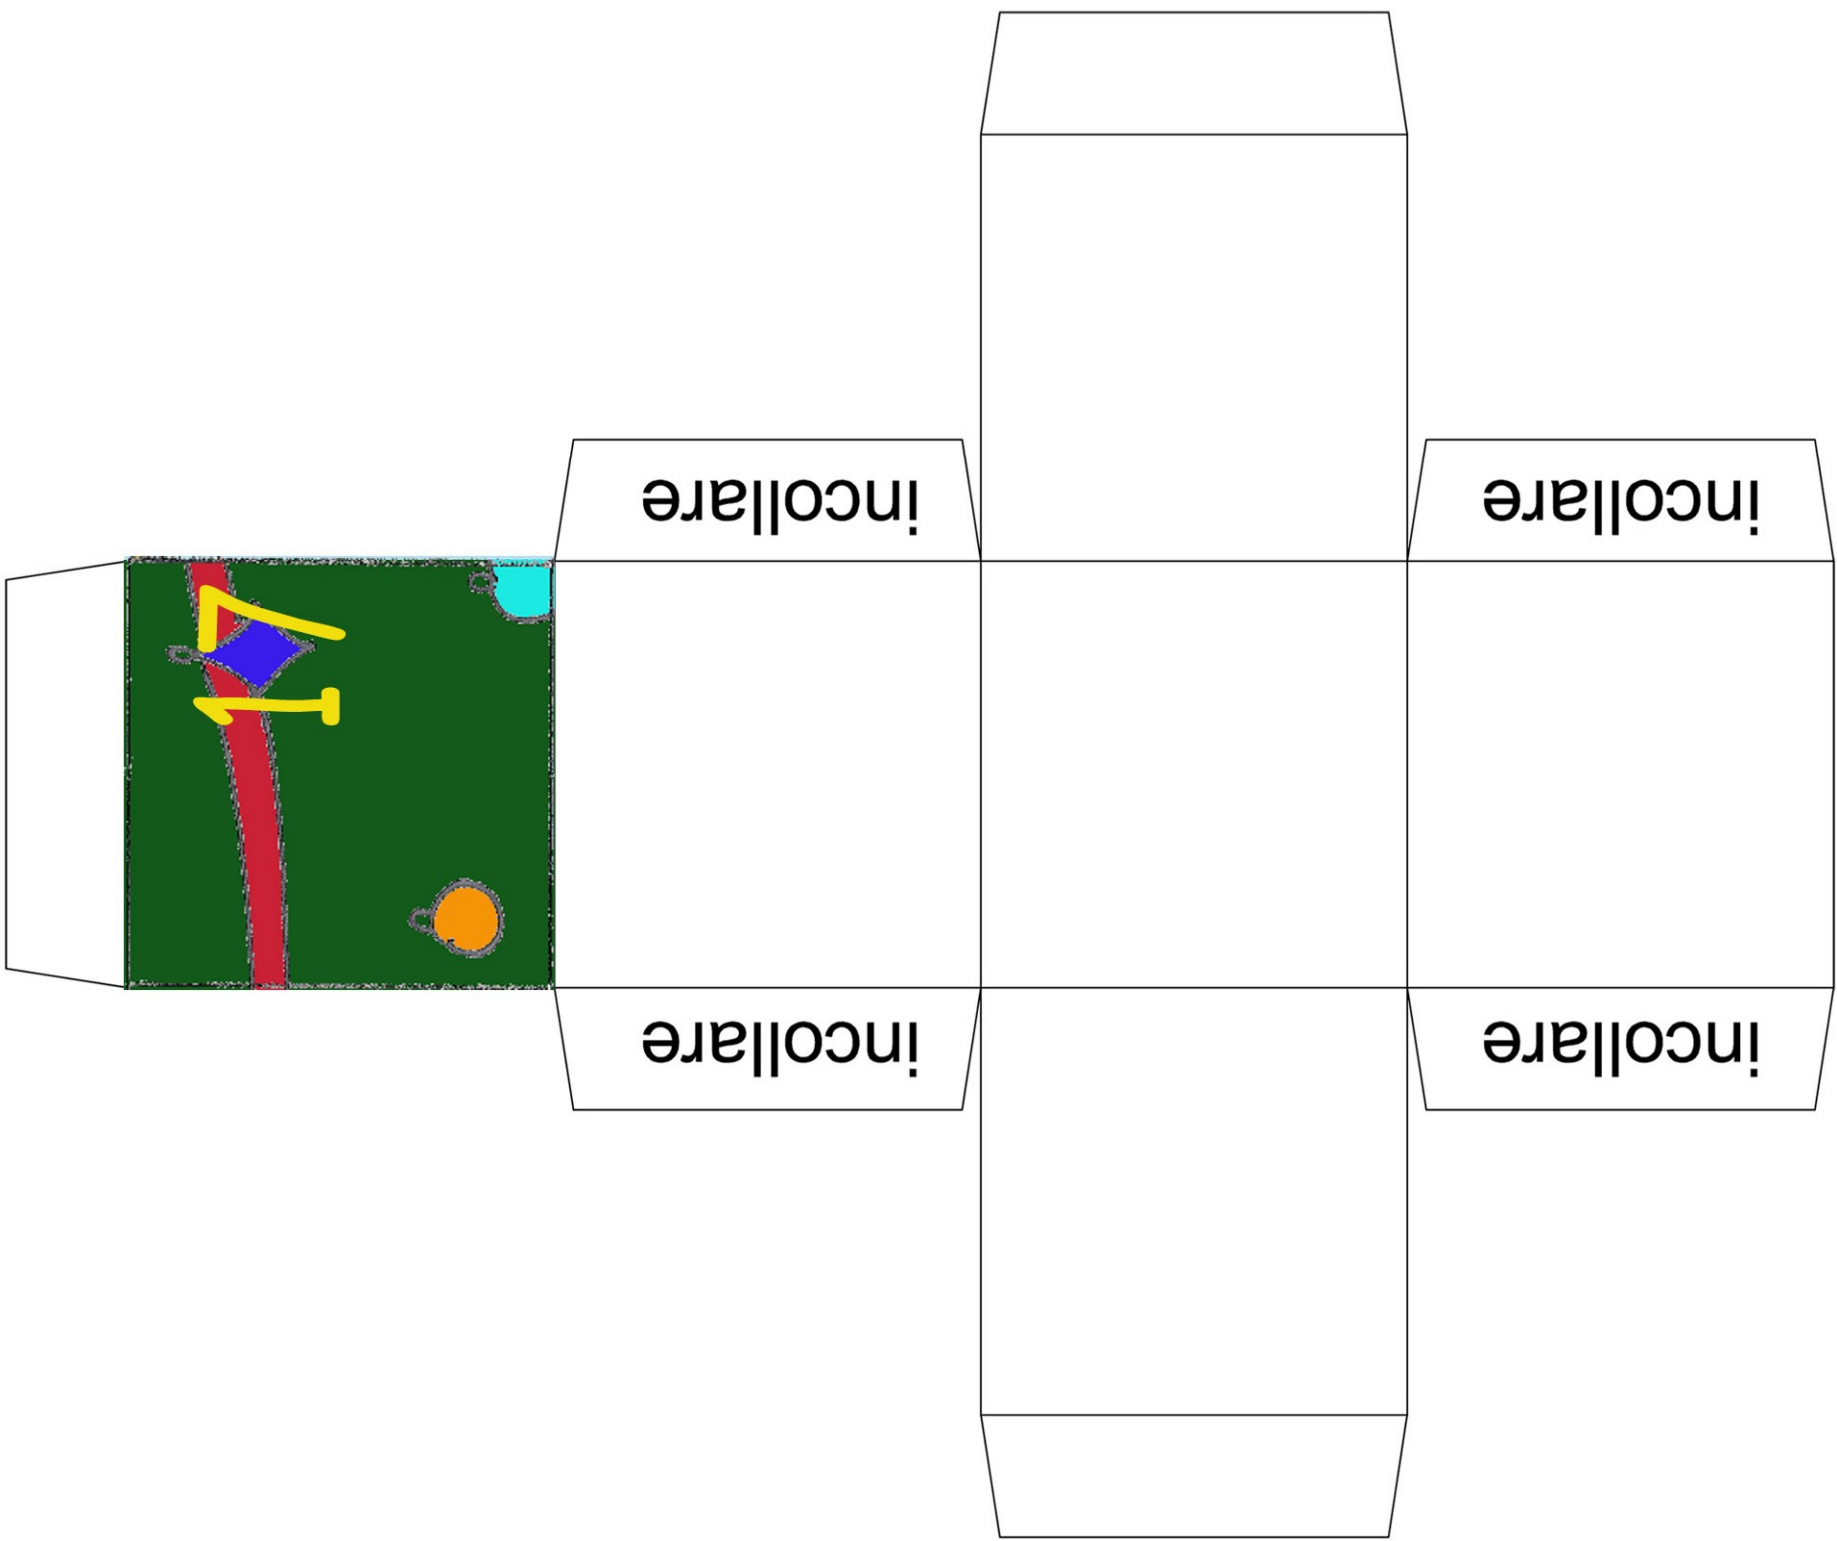

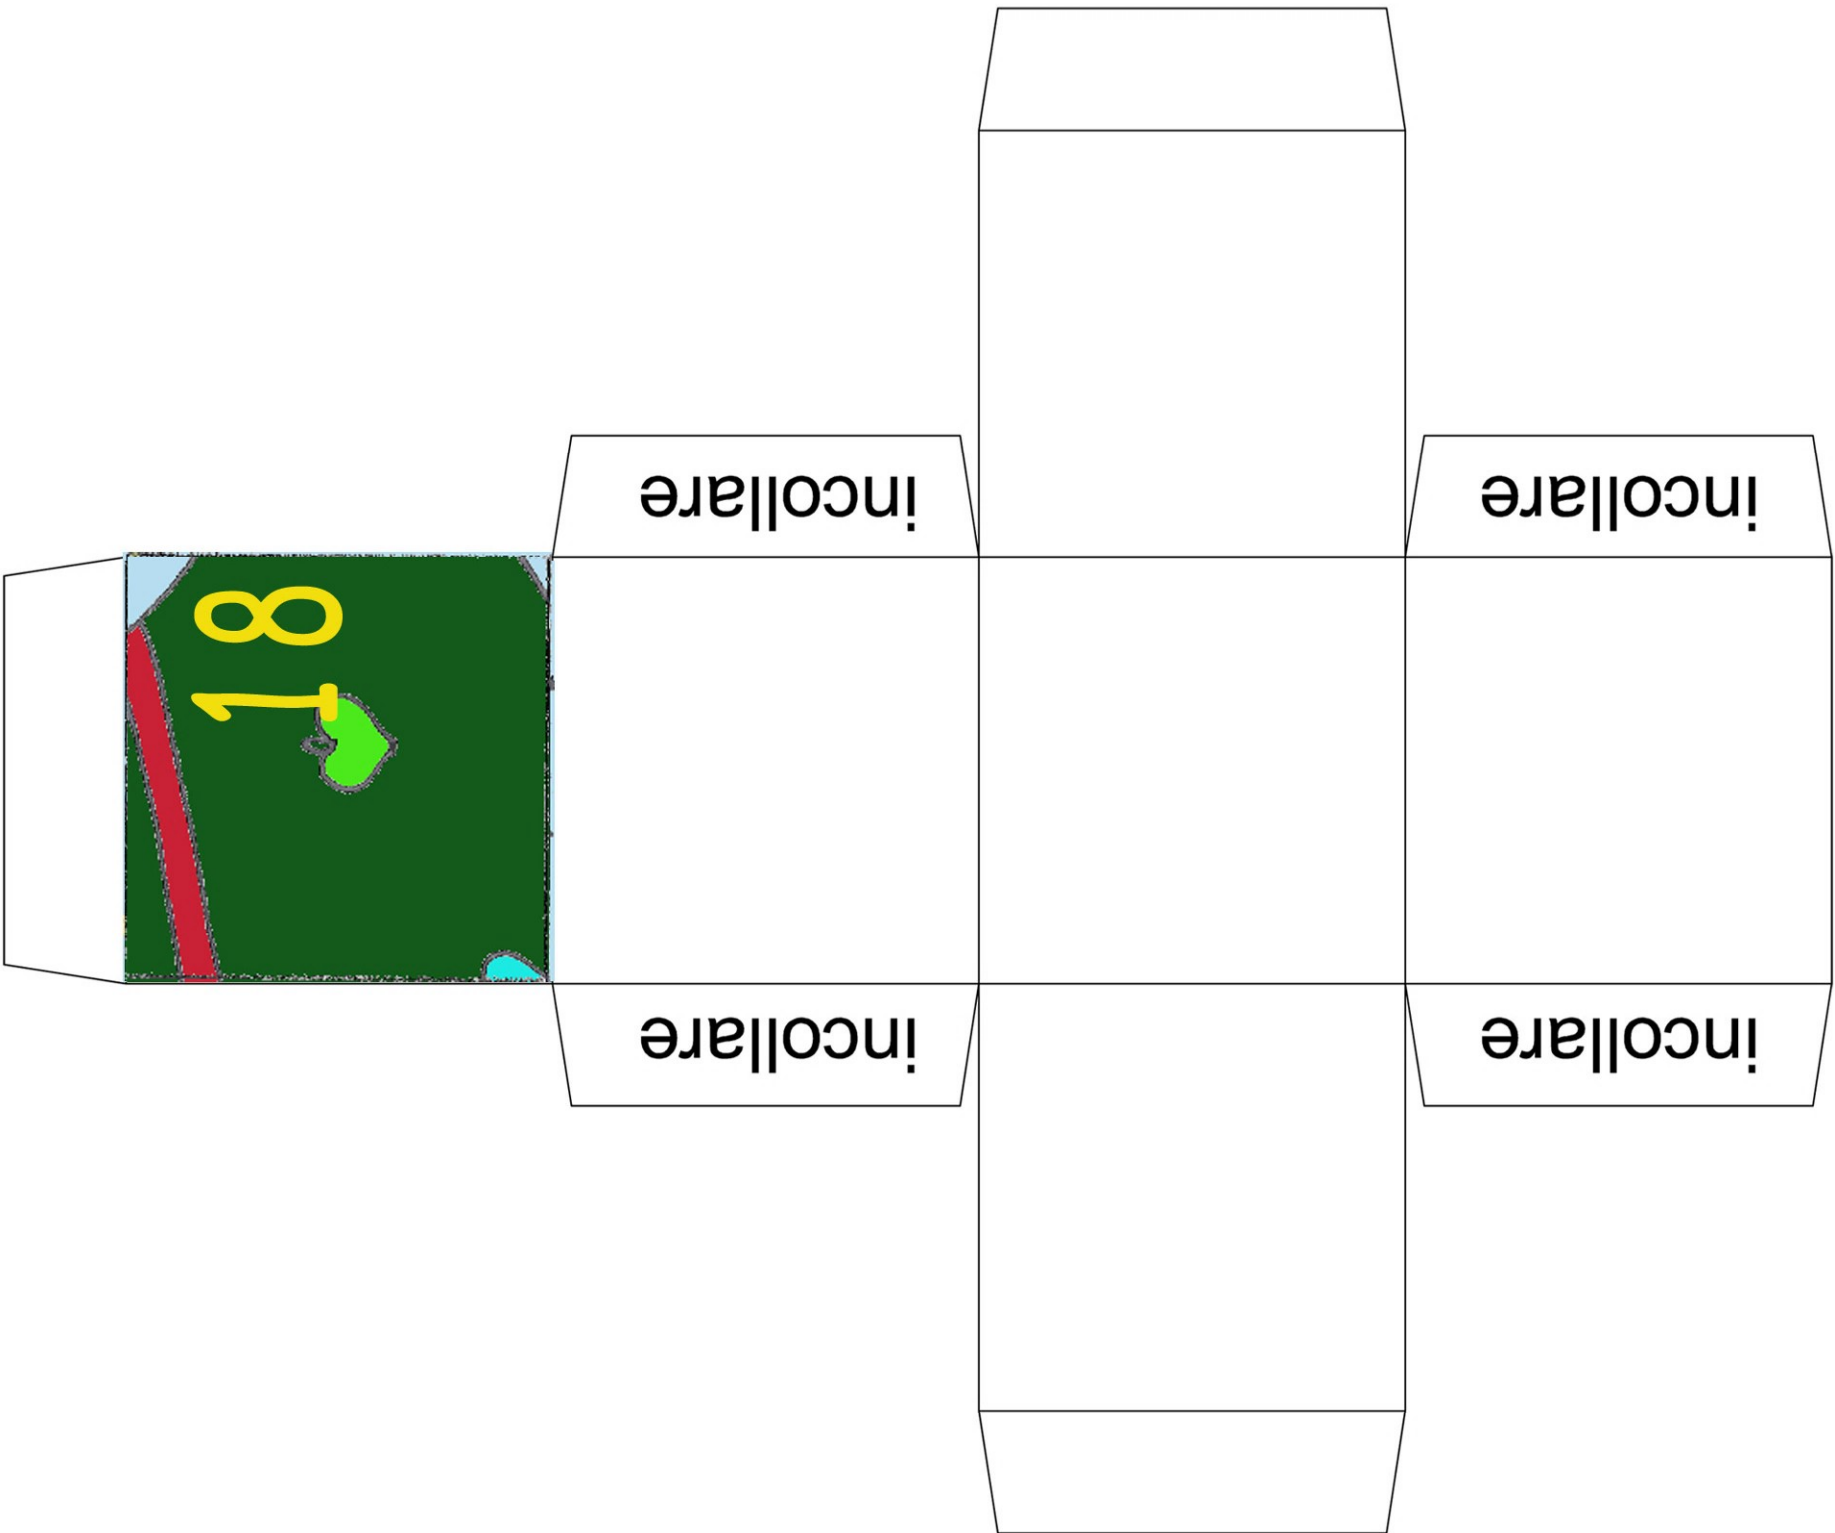

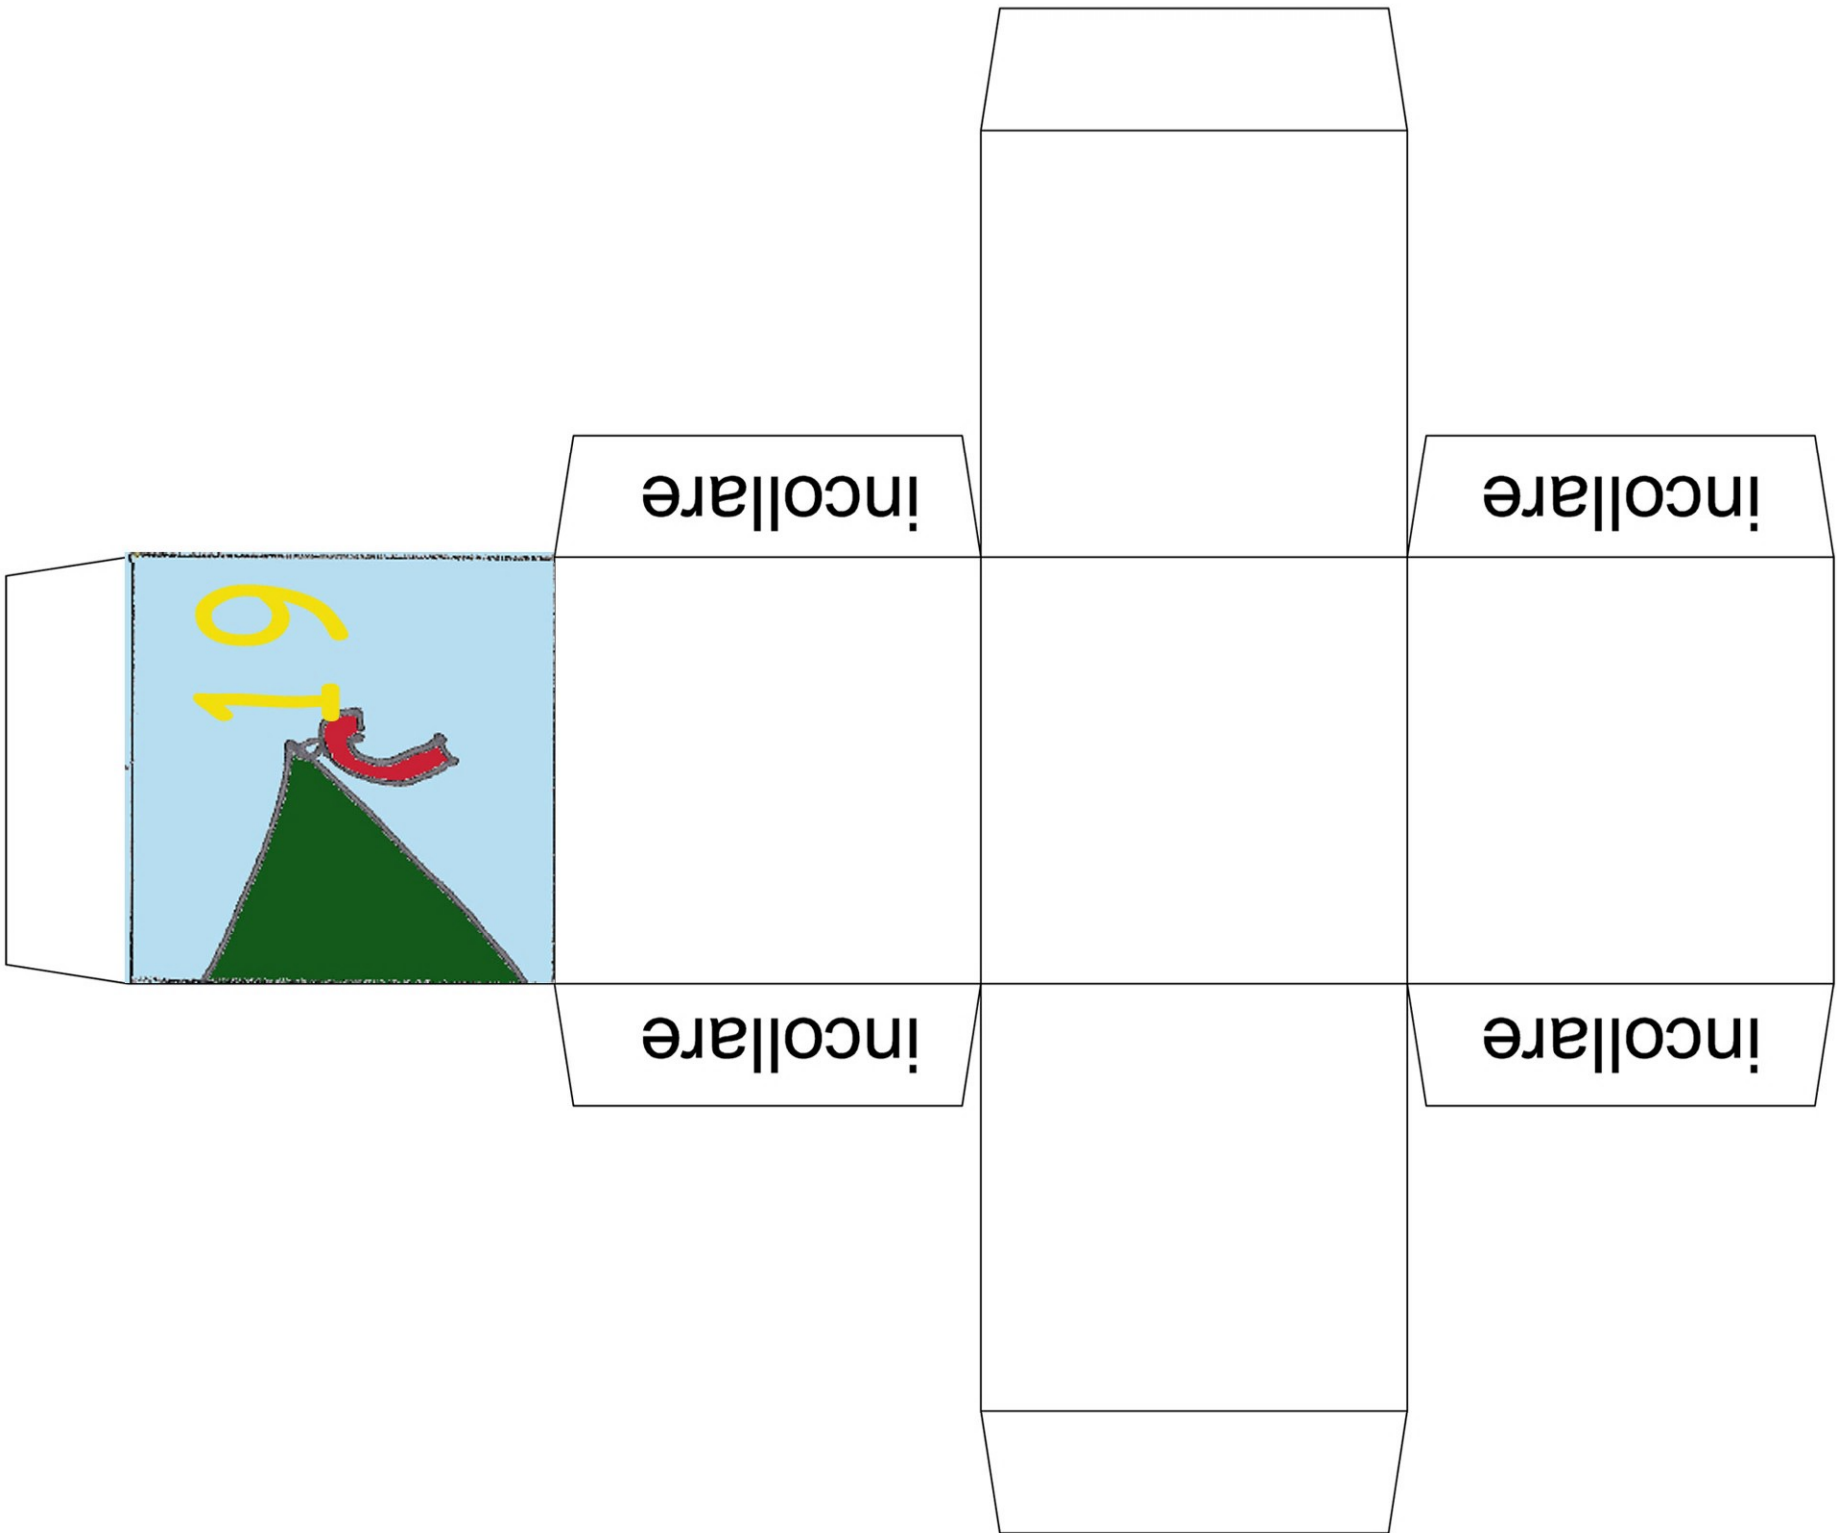

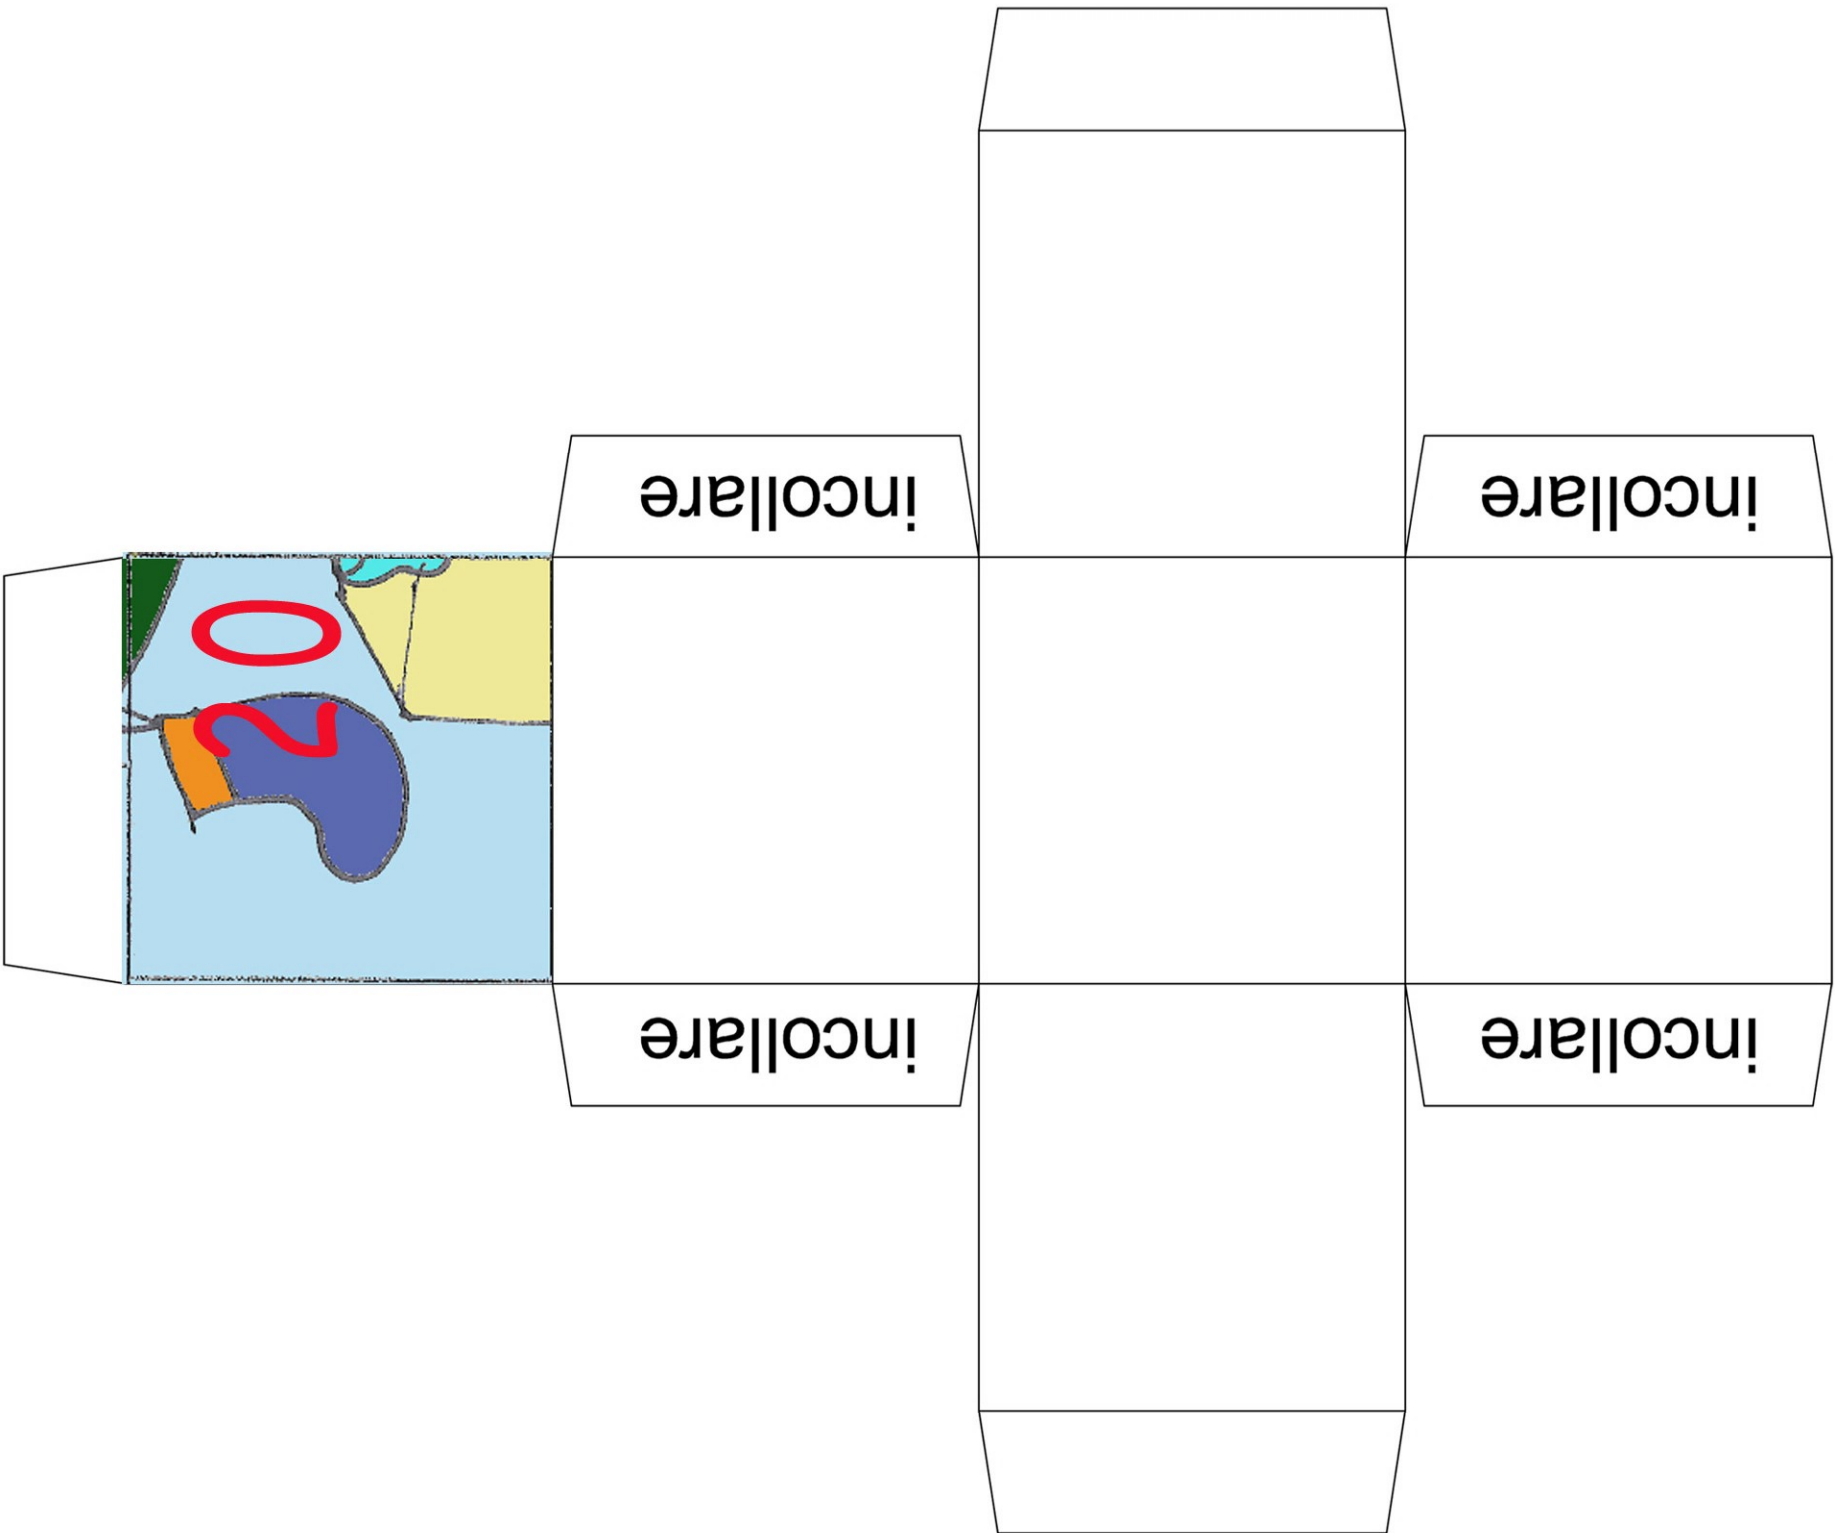

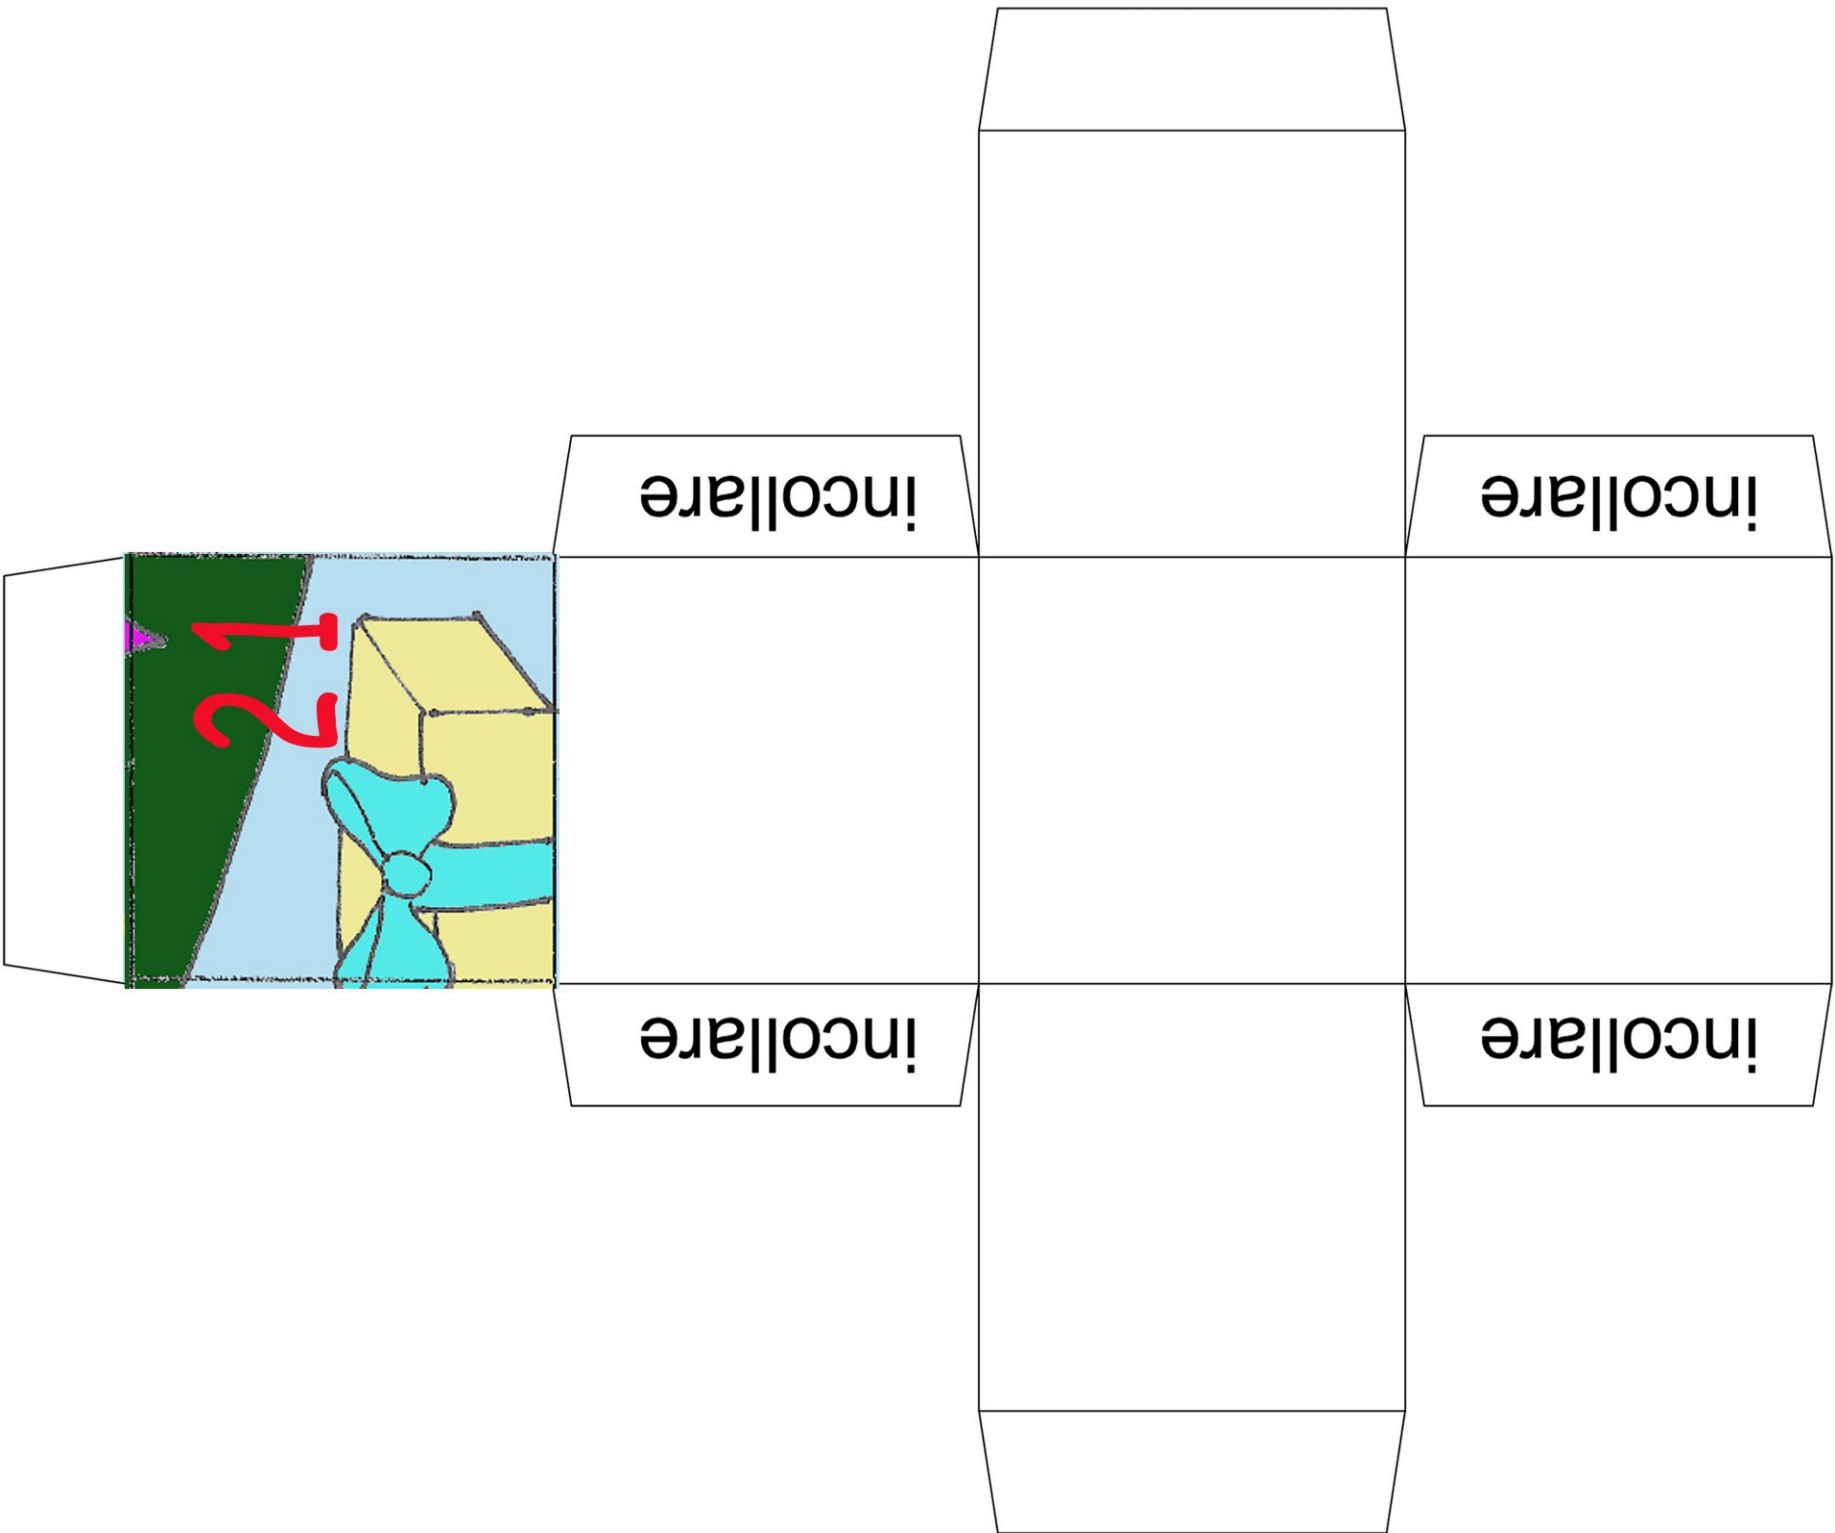

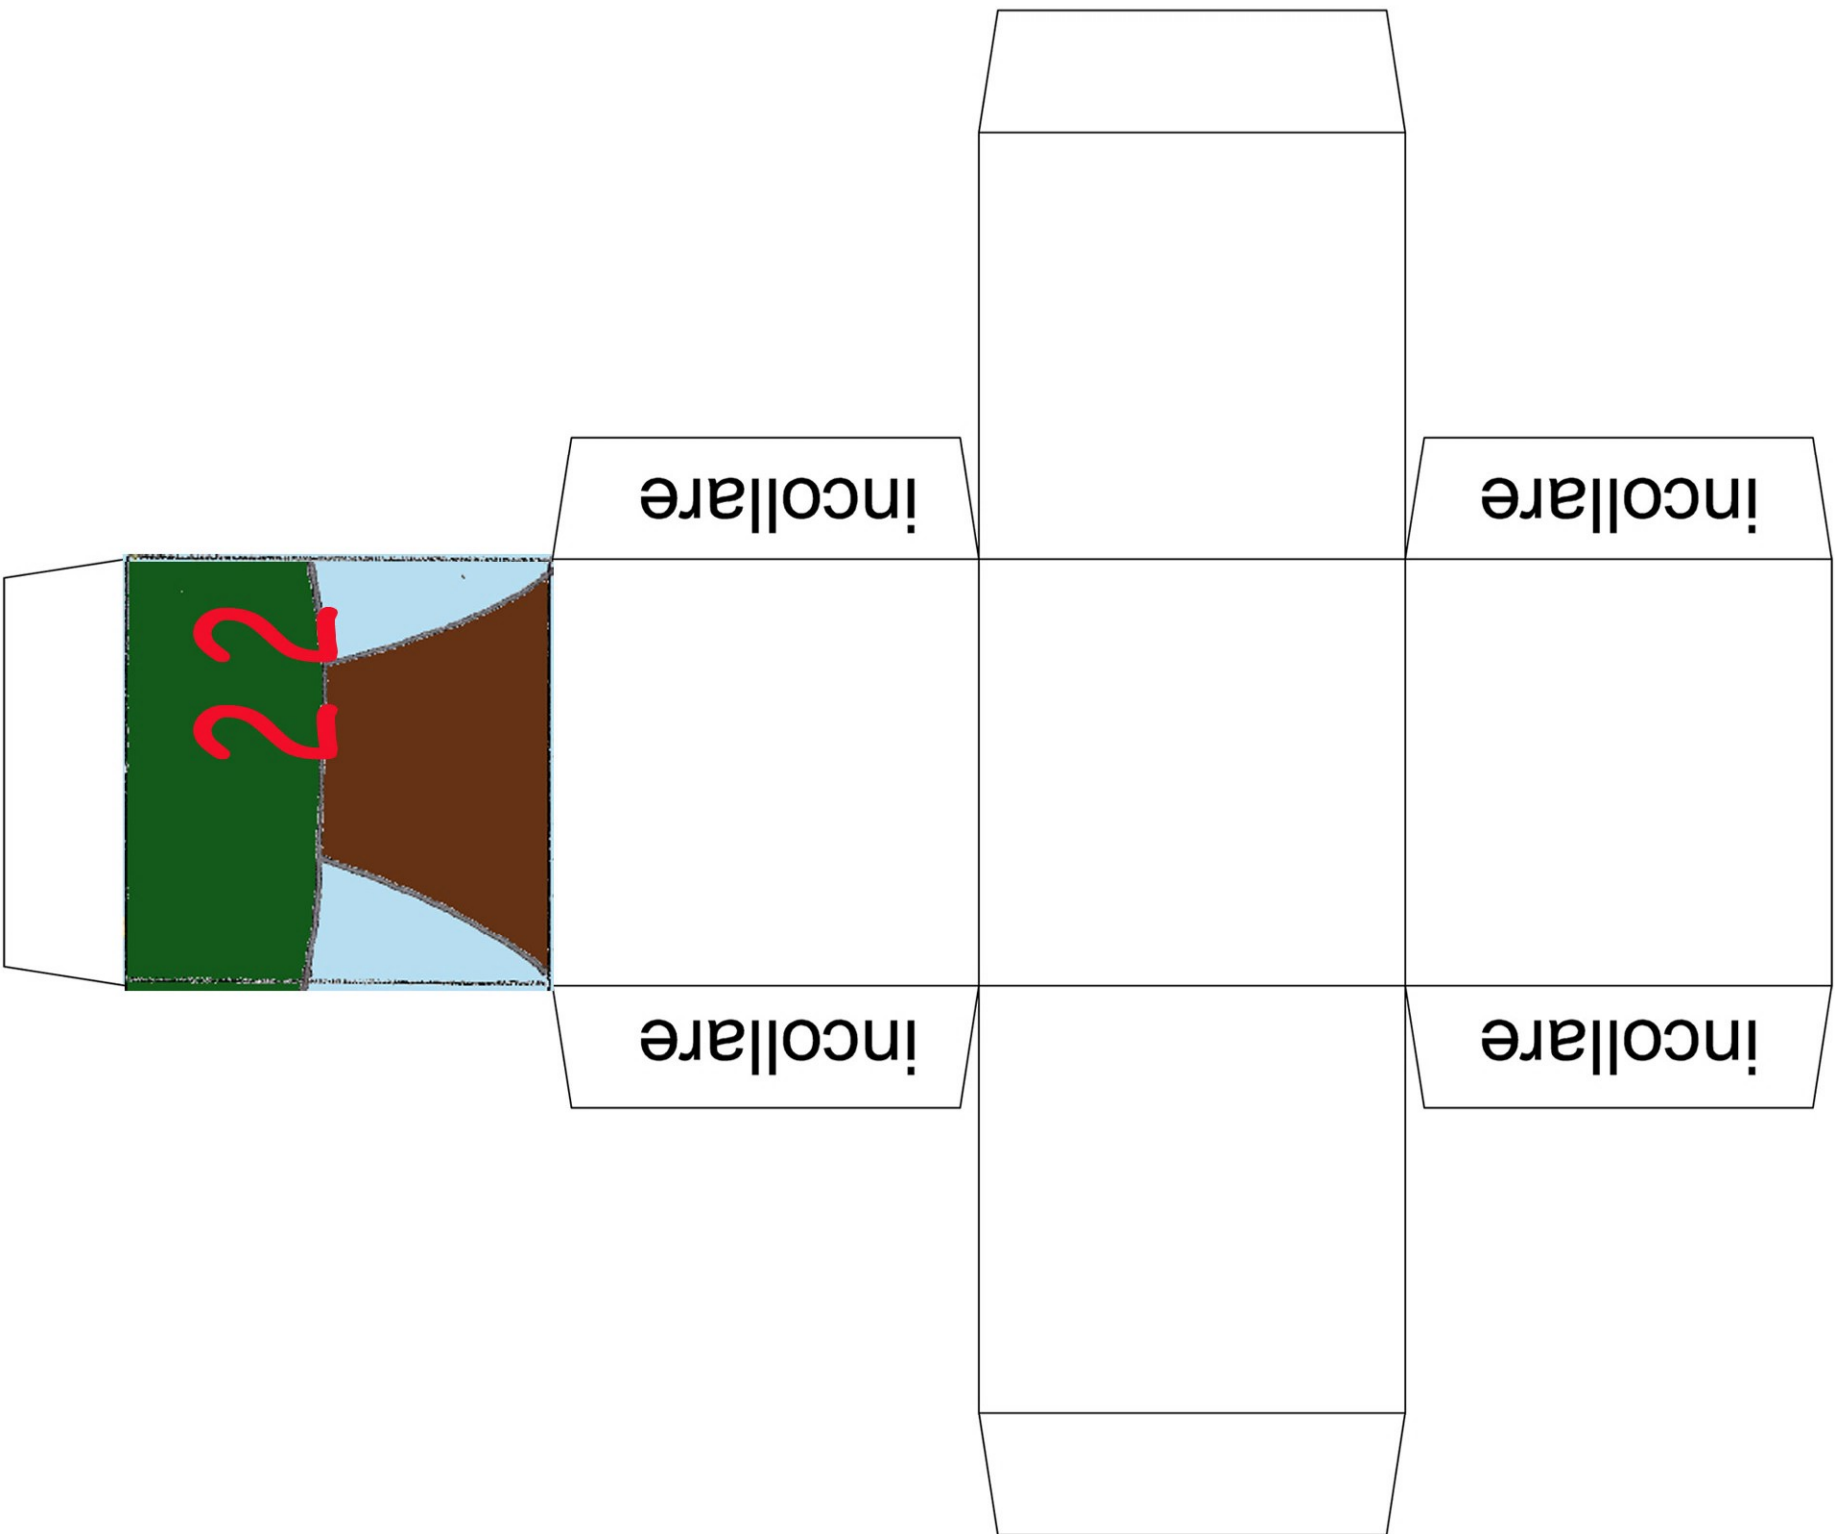

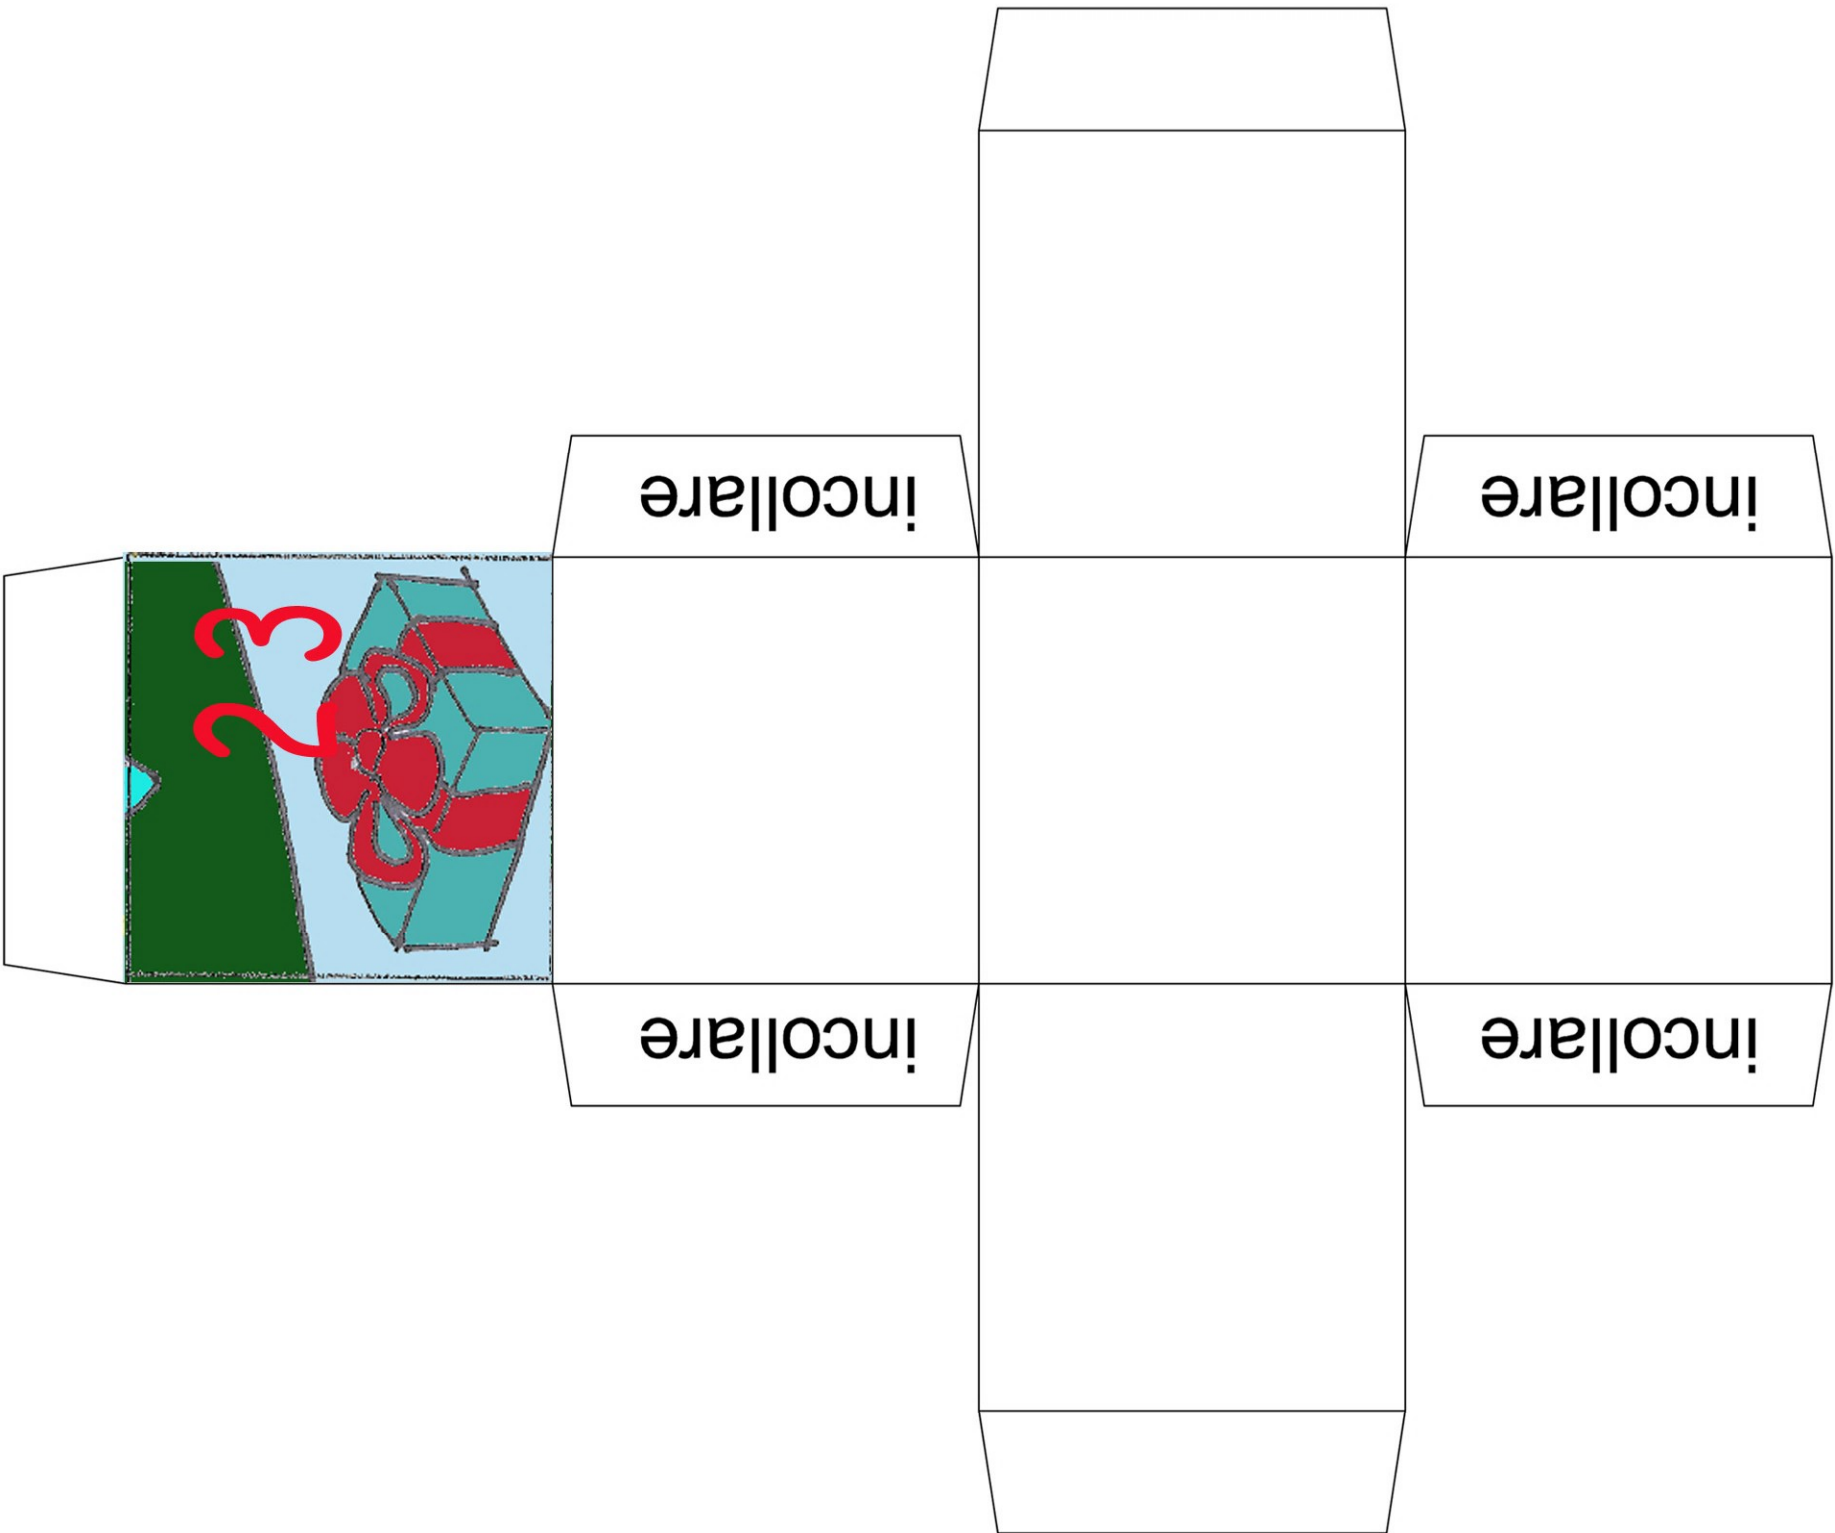

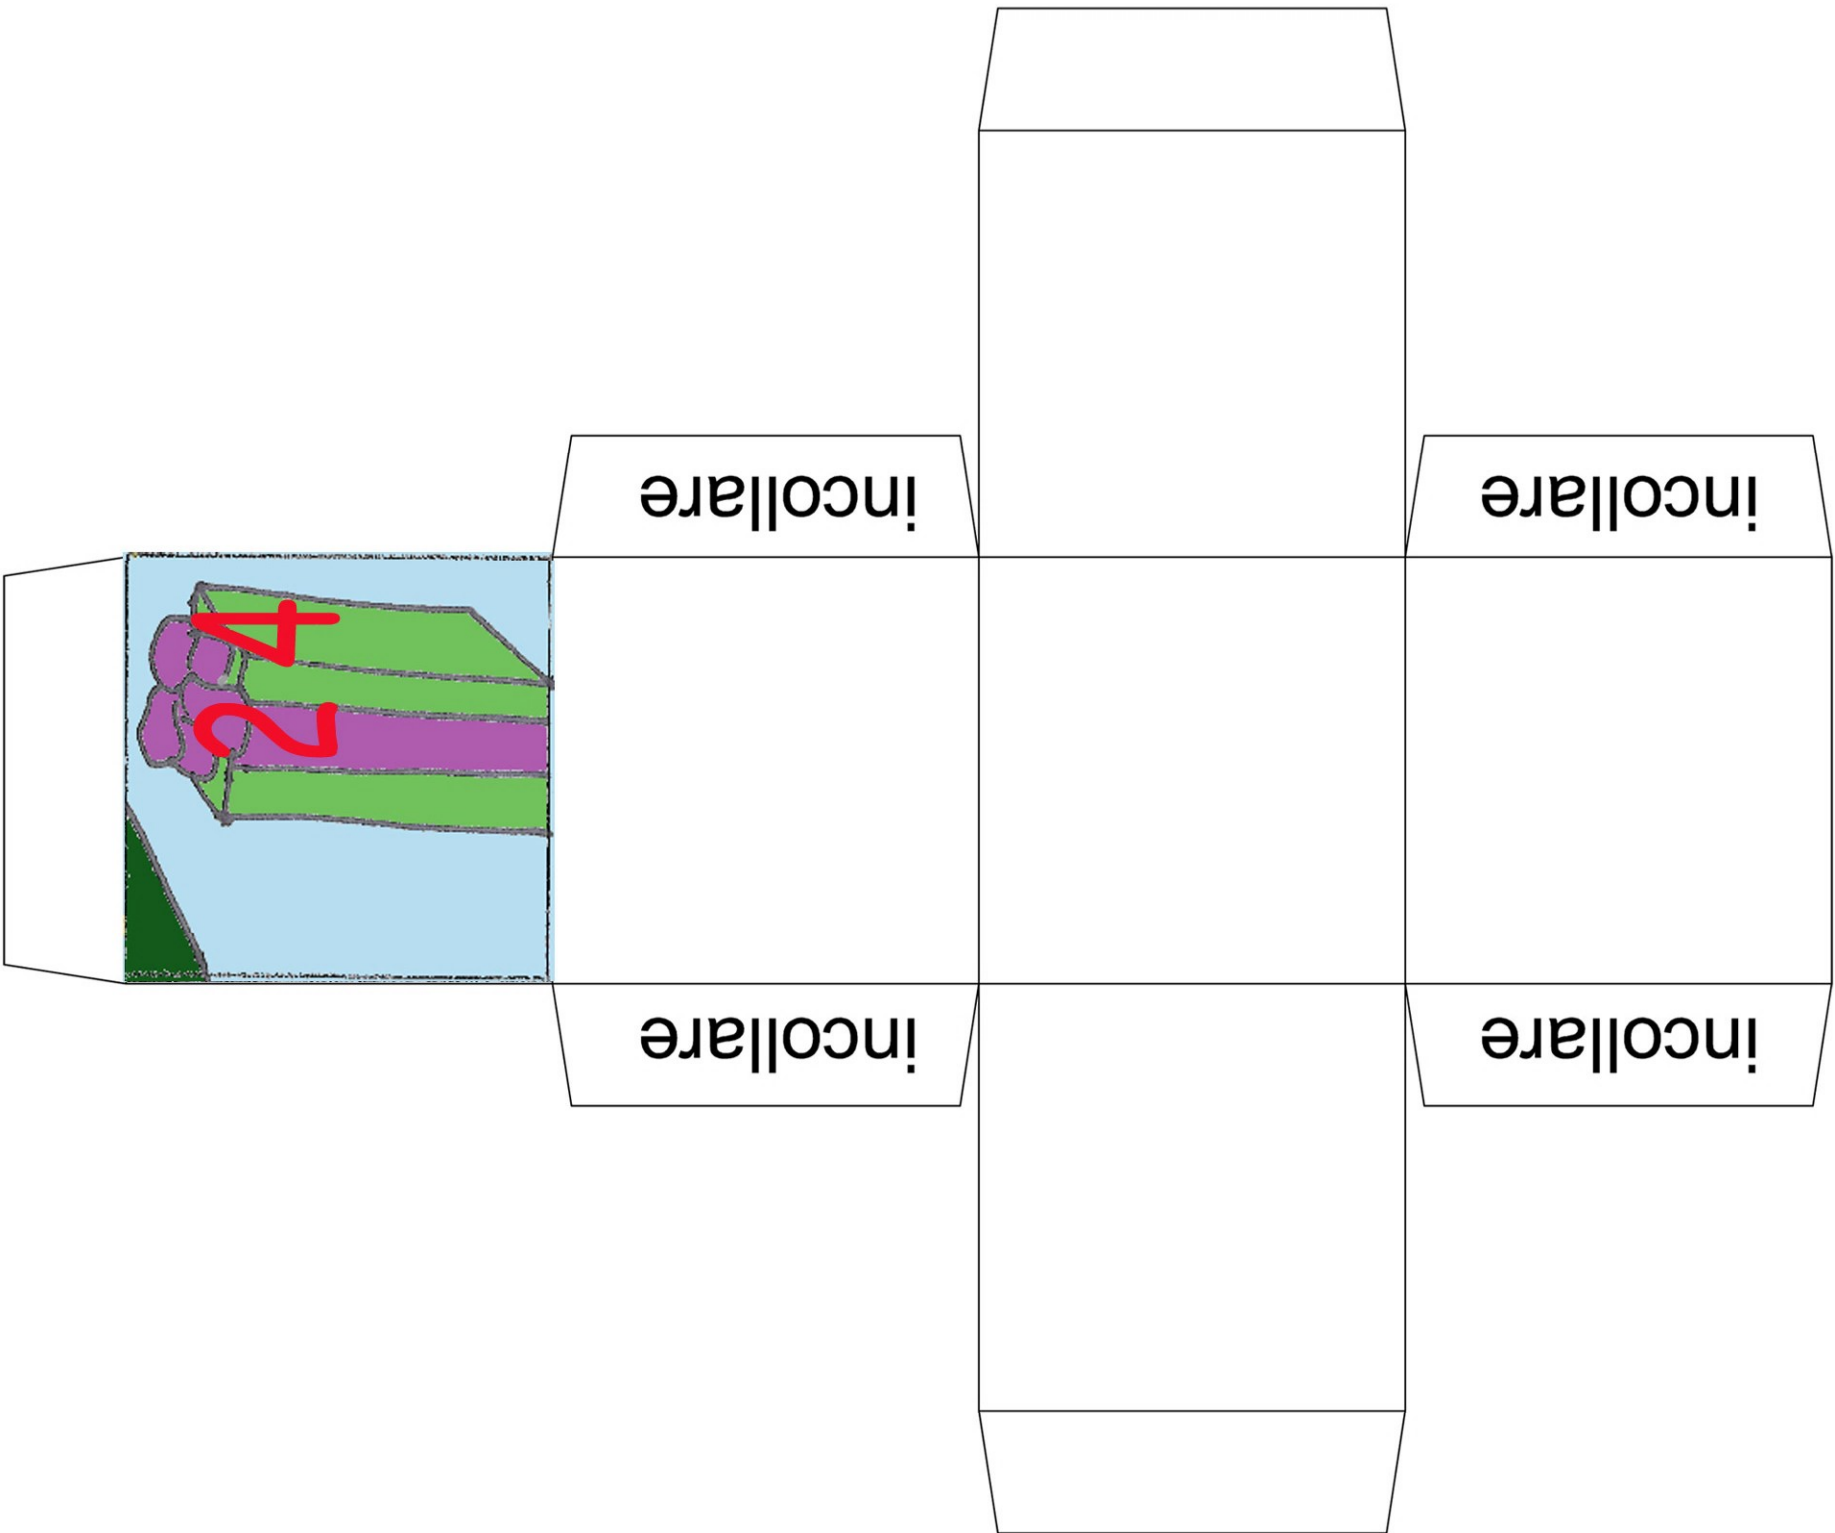

Spero che questo calendario dell'Arvento da costruire
sia sia piaciuto.
